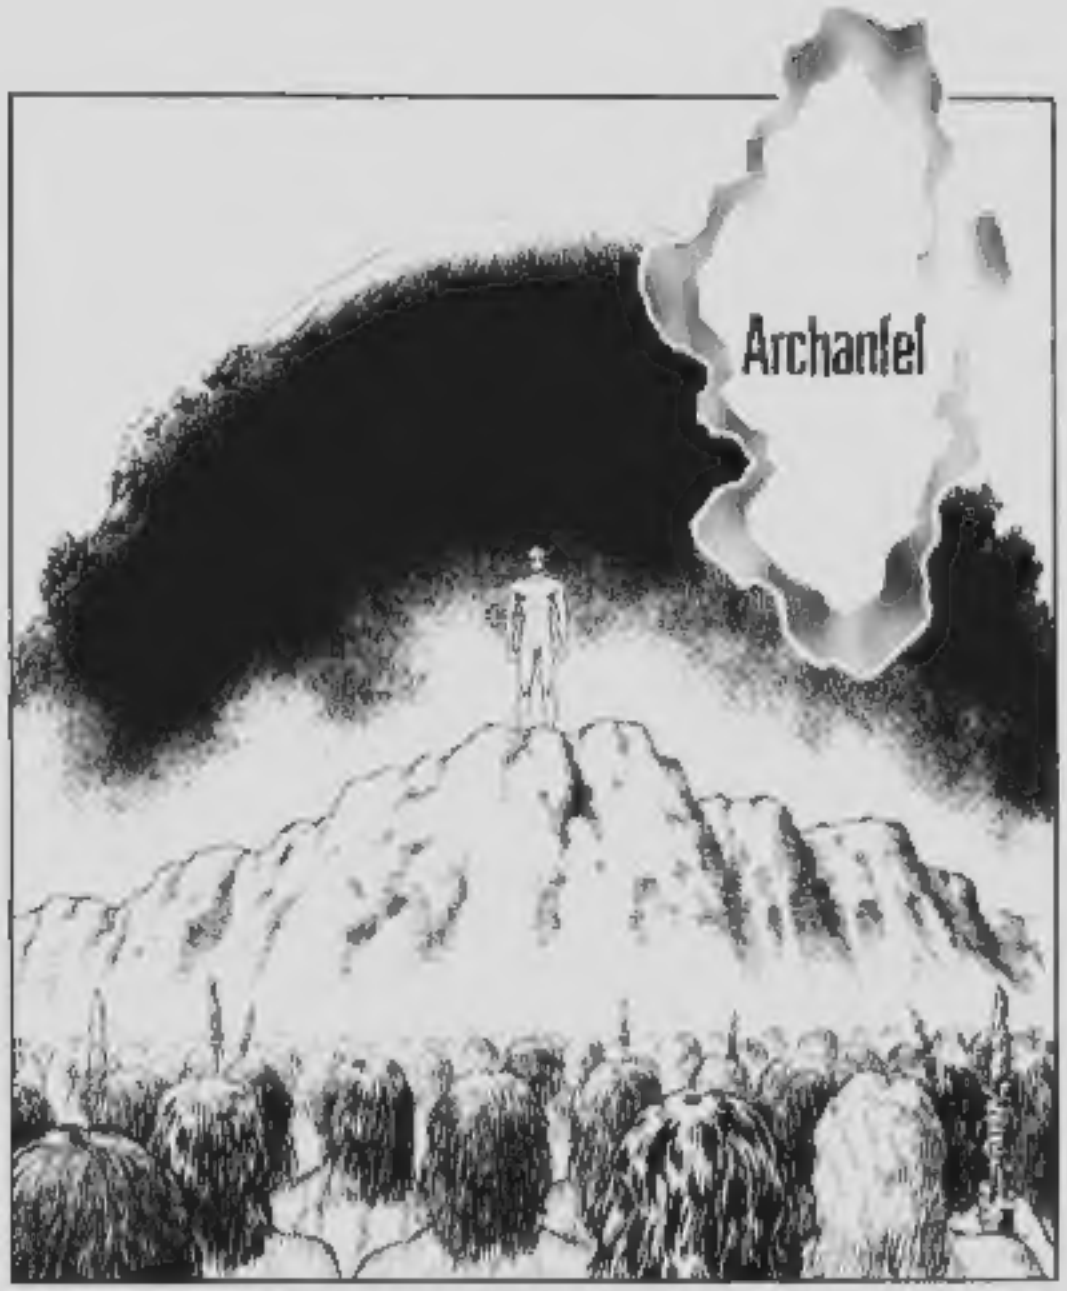
Also, the humans we have processed into Zoanoids show the same absolute obedience to you they do us.
You are to be the leader of all Zoanoids
because your form was subjected to a special procedure in order to give you special authority



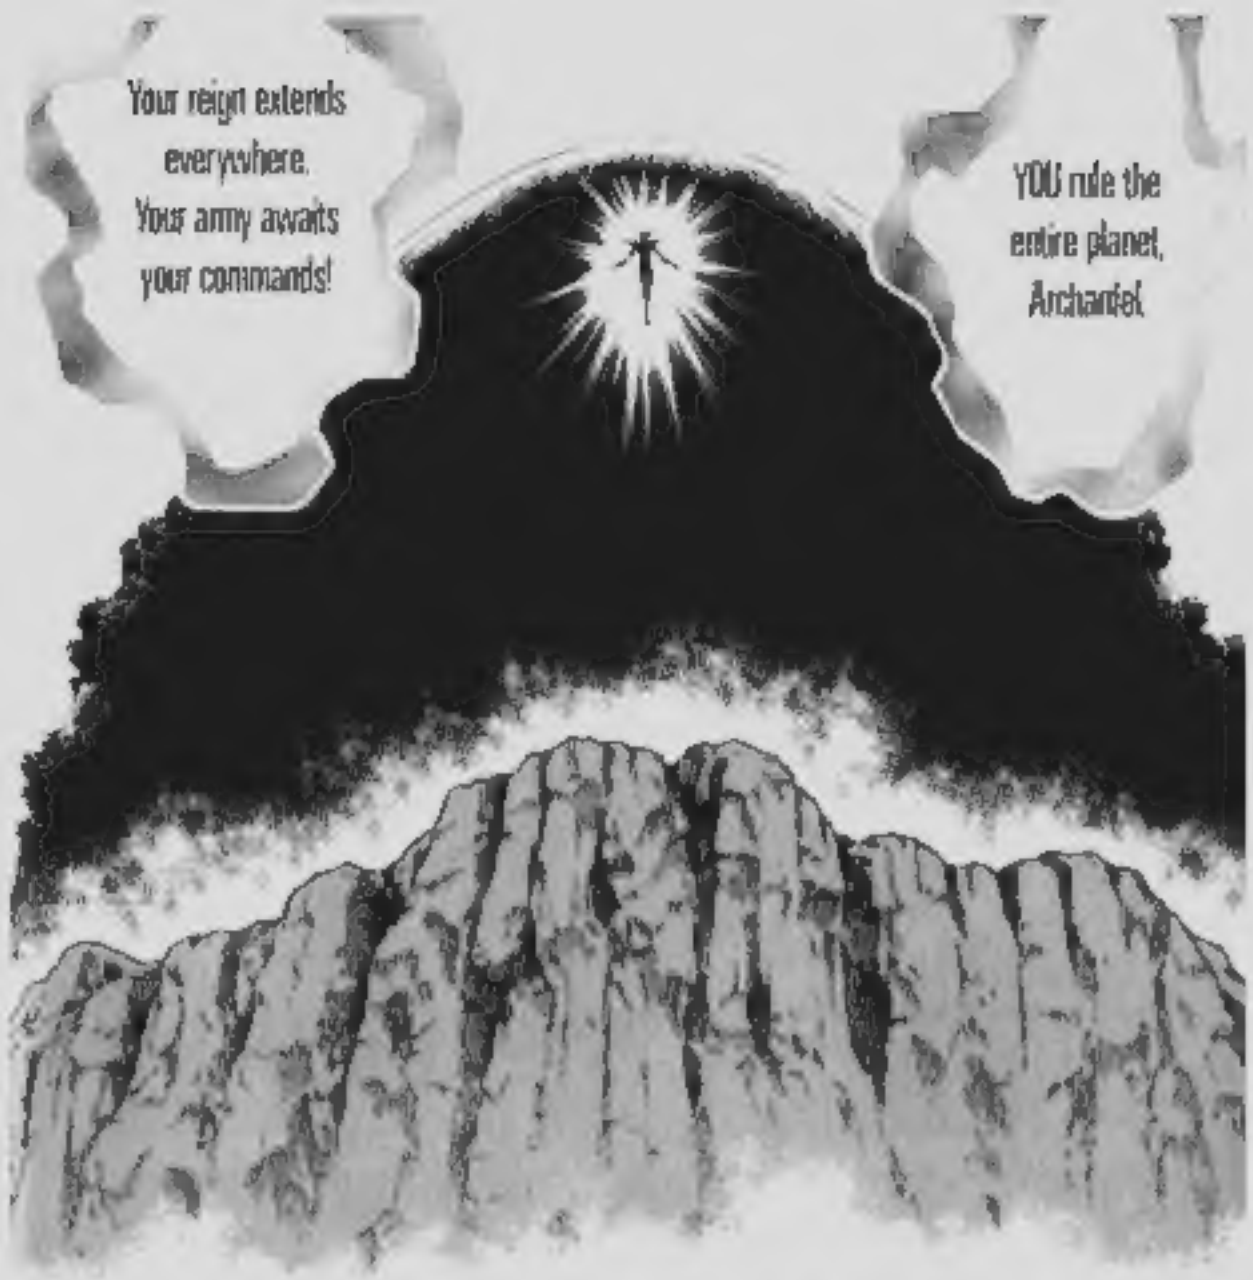
Archanfel

We decided to give you some of the power we, Uranus, possess.
When we created your form, like we created all that exist.

of all the research we performed on this planet
You are the result

A ZOALORD!

to control them in our name!
You will fight as the leader of these warriors...
As you command,
Uranus!
my master,



Your reign extends everywhere. Your army awaits your commands!
YOU rule the entire planet, Archangel.

...We will form a huge army composed of twelve Zoalords and over a billion Zoanoids...

...And we will transport all forces from this planet across the gulf of space

Now, Archanfel, we will create eleven more beings like you, and then...

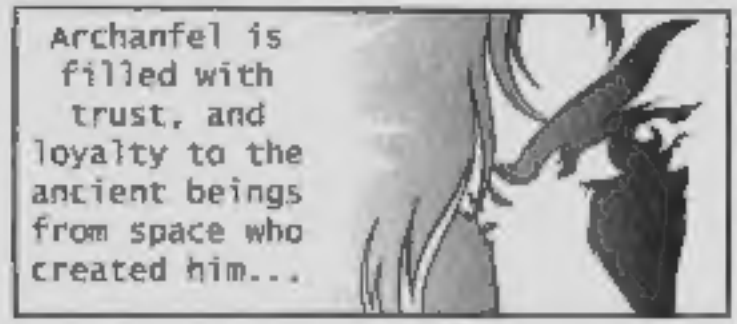
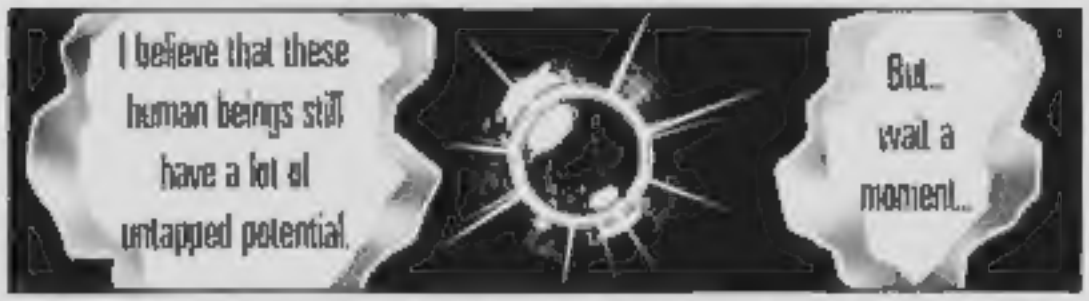
...You, the first Zoalord.
We're counting on you, Alkaiphel.



Archanfel is filled with trust, and loyalty to the ancient beings from space who created him...

..What are their true intentions?
..But

Now we can conclude our project on this planet...
Prepare to leave for the next destination, where we'll perform further experiments.



I believe that these human beings still have a lot of untapped potential.
But... wait a moment...

.....
I would like to perform some other experiments besides the Zoanoid development.

Such as...?

GUYVER?!

We have merged a non-processed human with the armor we commonly equip ourselves with.

Uranus...

What is that?

!!

But why would you perform such an experiment?

The experiment begins.

We wish to know how our armor will effect a being that's been developed as a weapon.

!!

But this ones' agility and ferocity should be remarkable..

We have ceased their production because of atmosphere incompatibility

since it's been processed in a procedure similar to that of the Zoanoids

Its fighting power is equal to that of an entire squad of Zoanoids!

FU FU FU FU

A Dragon ?!

to resist this monsters' attack!
The purpose of this experiment is to learn how far we can increase the human weapon's ability

It possesses superior power, perhaps as much as ten times what we,

Uranus gain when wearing this armor!

!!

It's fighting power is incredible!

Extraordinary!

We never expected a living thing to attain power so far beyond what we ourselves possess!

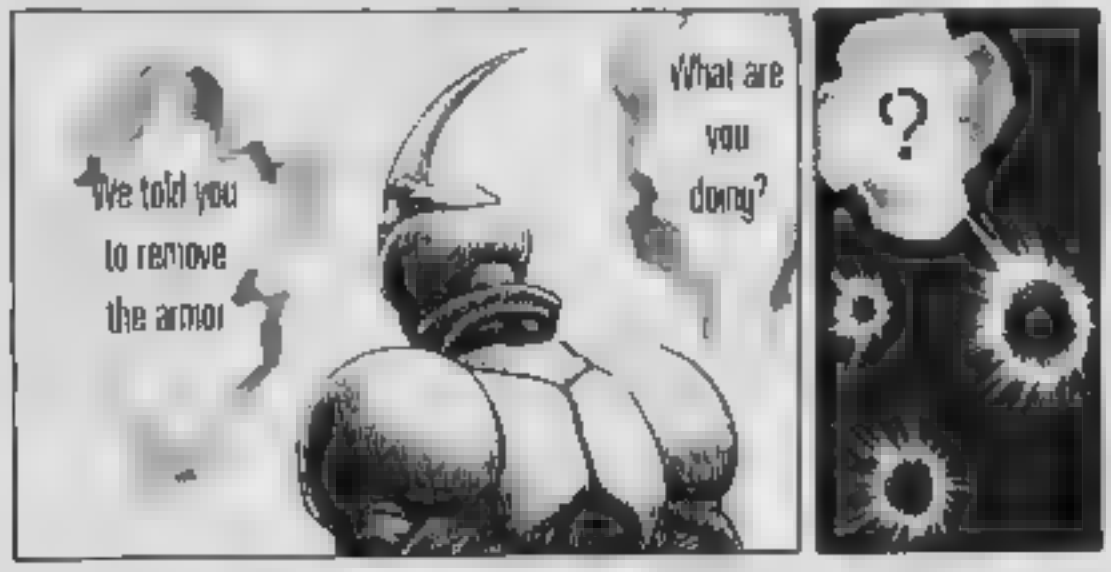
We knew, of course, that the unit increases the abilities of any being that wields it, but –

...DO YOU UNDERSTAND?

!?

We should immediately correlate our data and change our plans accordingly!
In any case, this experiment was extremely worthwhile.
Surely you realize the value of this unique and extraordinary weapon.

Remove the armor and await your next orders.
Well, for the moment, the experiment is over.



We told you to remove the armor
What are you doing?

Uranus?

U

What has happened to him?

Why?

It

demonstrated hostility towards us!

And, as if that wasn't enough...

The bio-boosted human ignored our order and reacted without thinking!

...With enormous power!

Worse still, he has dared to attack us.

Hear us, Archanfel.

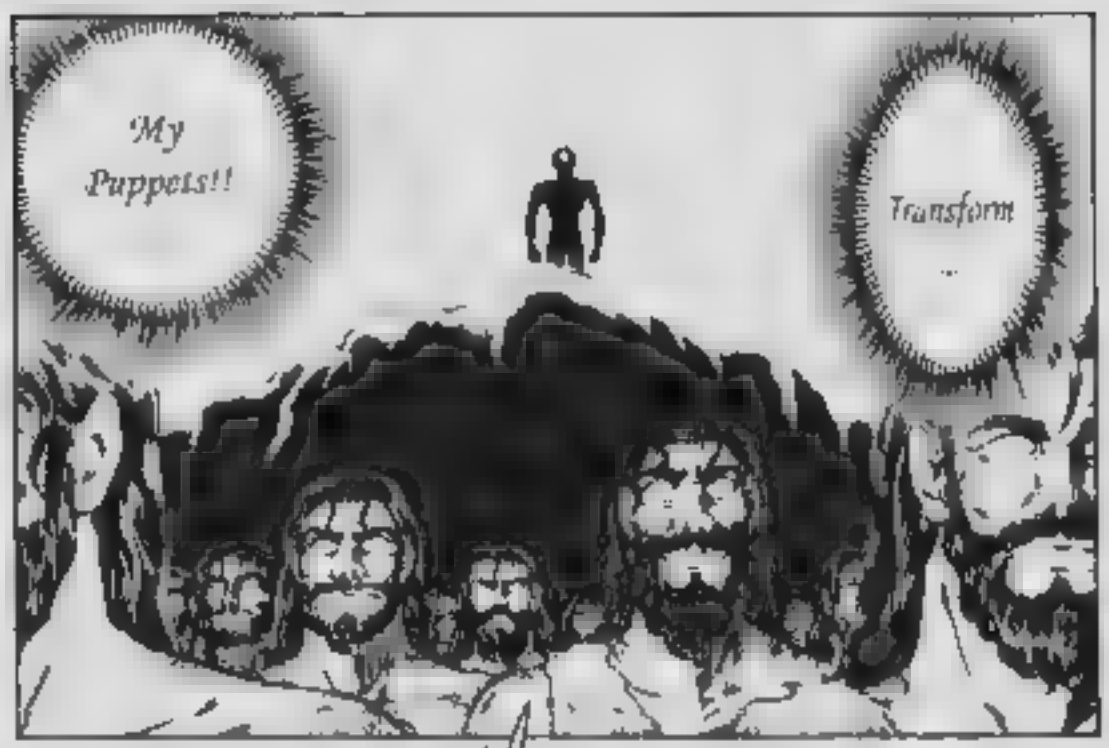
It is extremely dangerous!

It is dangerous!

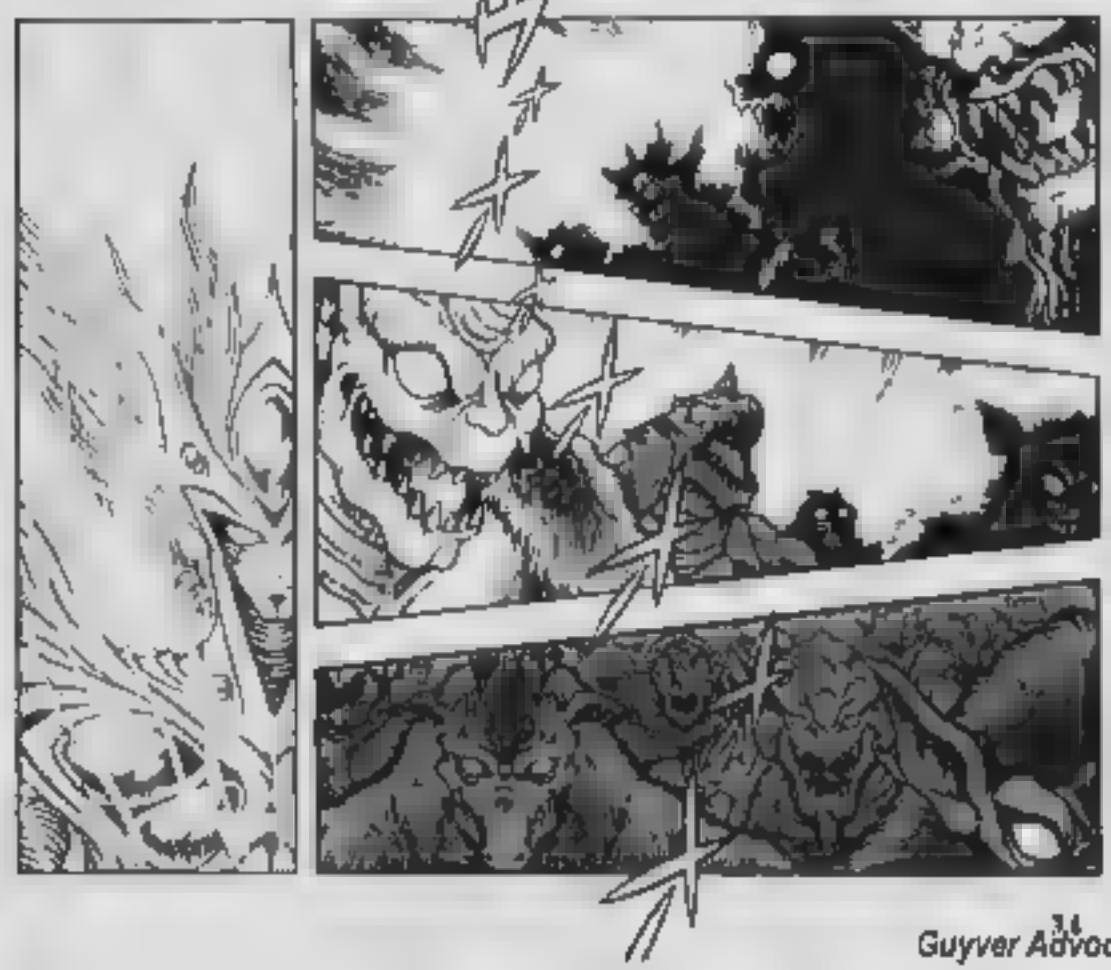
At once

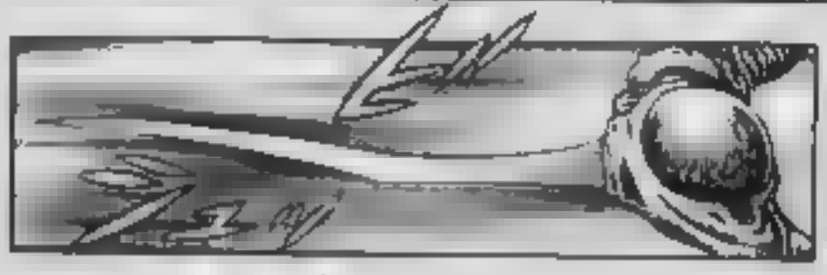
...Eliminate that bio-armor. pit it against your Zoanoids!

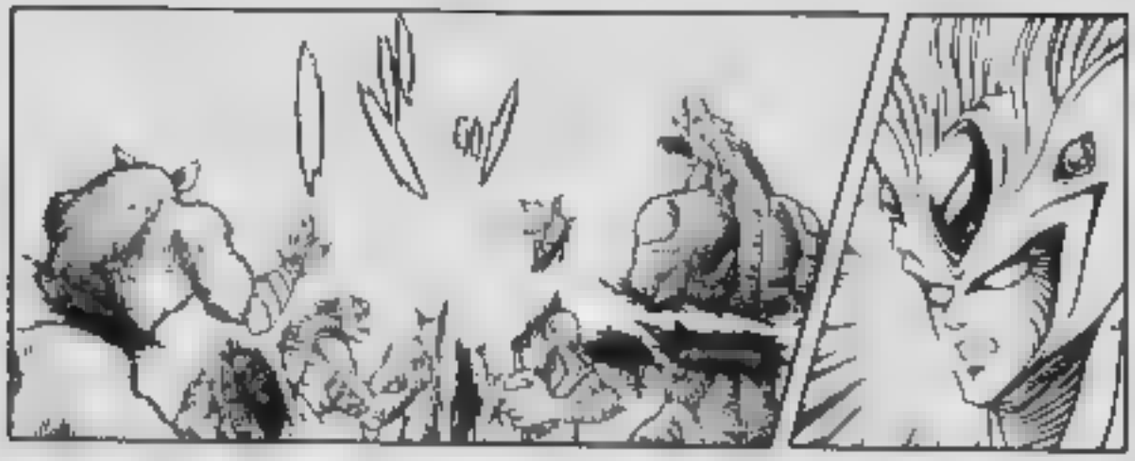
It has rebelled against our masters the Uranus
Annihilate the Bio-Armour

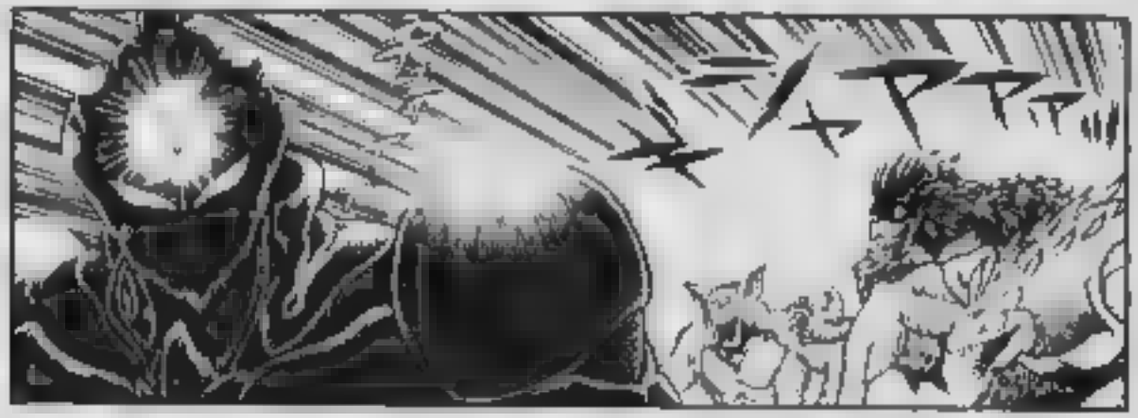


My Puppets!!
Transform









_ And return the bio-armor to its original state_

This device can erase the host's data from the control medal..

I will defeat that bio-armor with my bare hands

I require no such device'

OBEY OUR COMMAND, ARCHANFEL!

STOP!

If you were defeated, we would forever lose the means to eliminate the bio-armour

As you command

I shall go and eliminate it

That accursed thing managed to defeat all our Zoanoids in the blink of an eye!

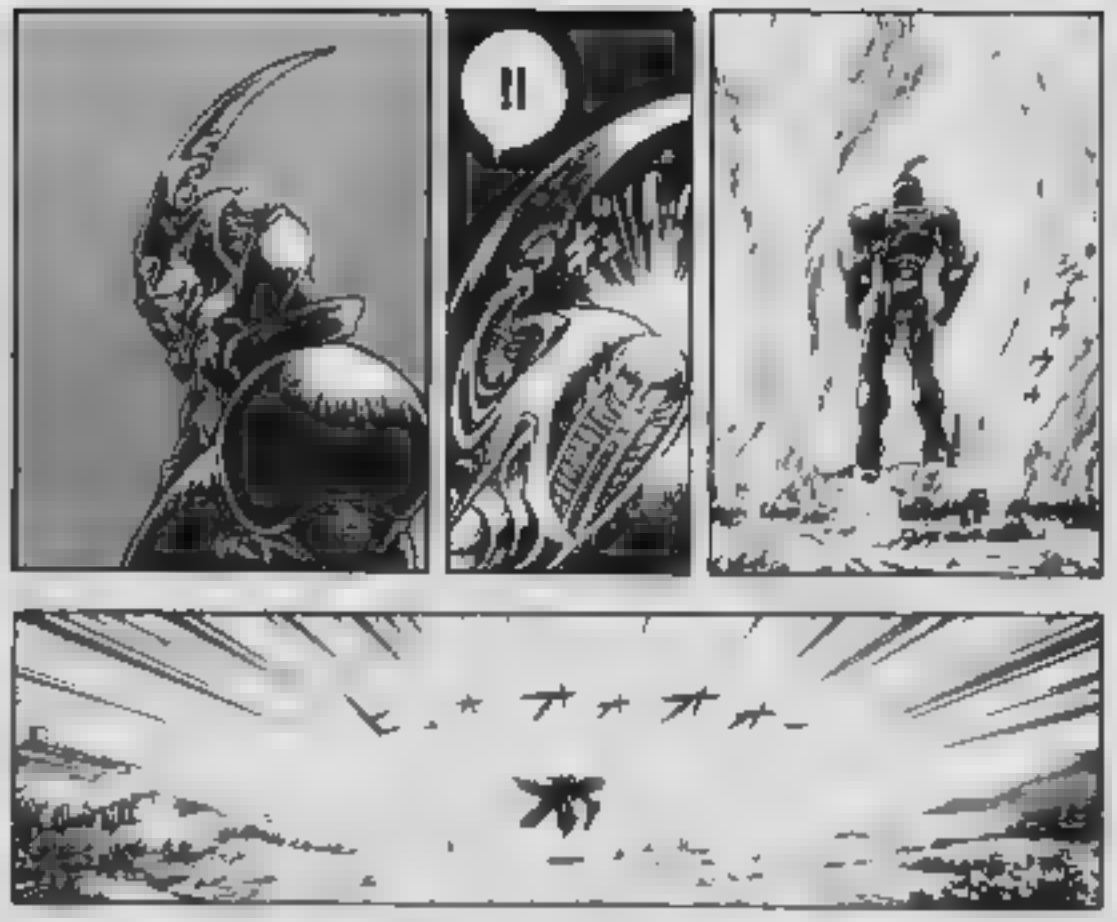
_ Use this.

Wait, Archanfel..

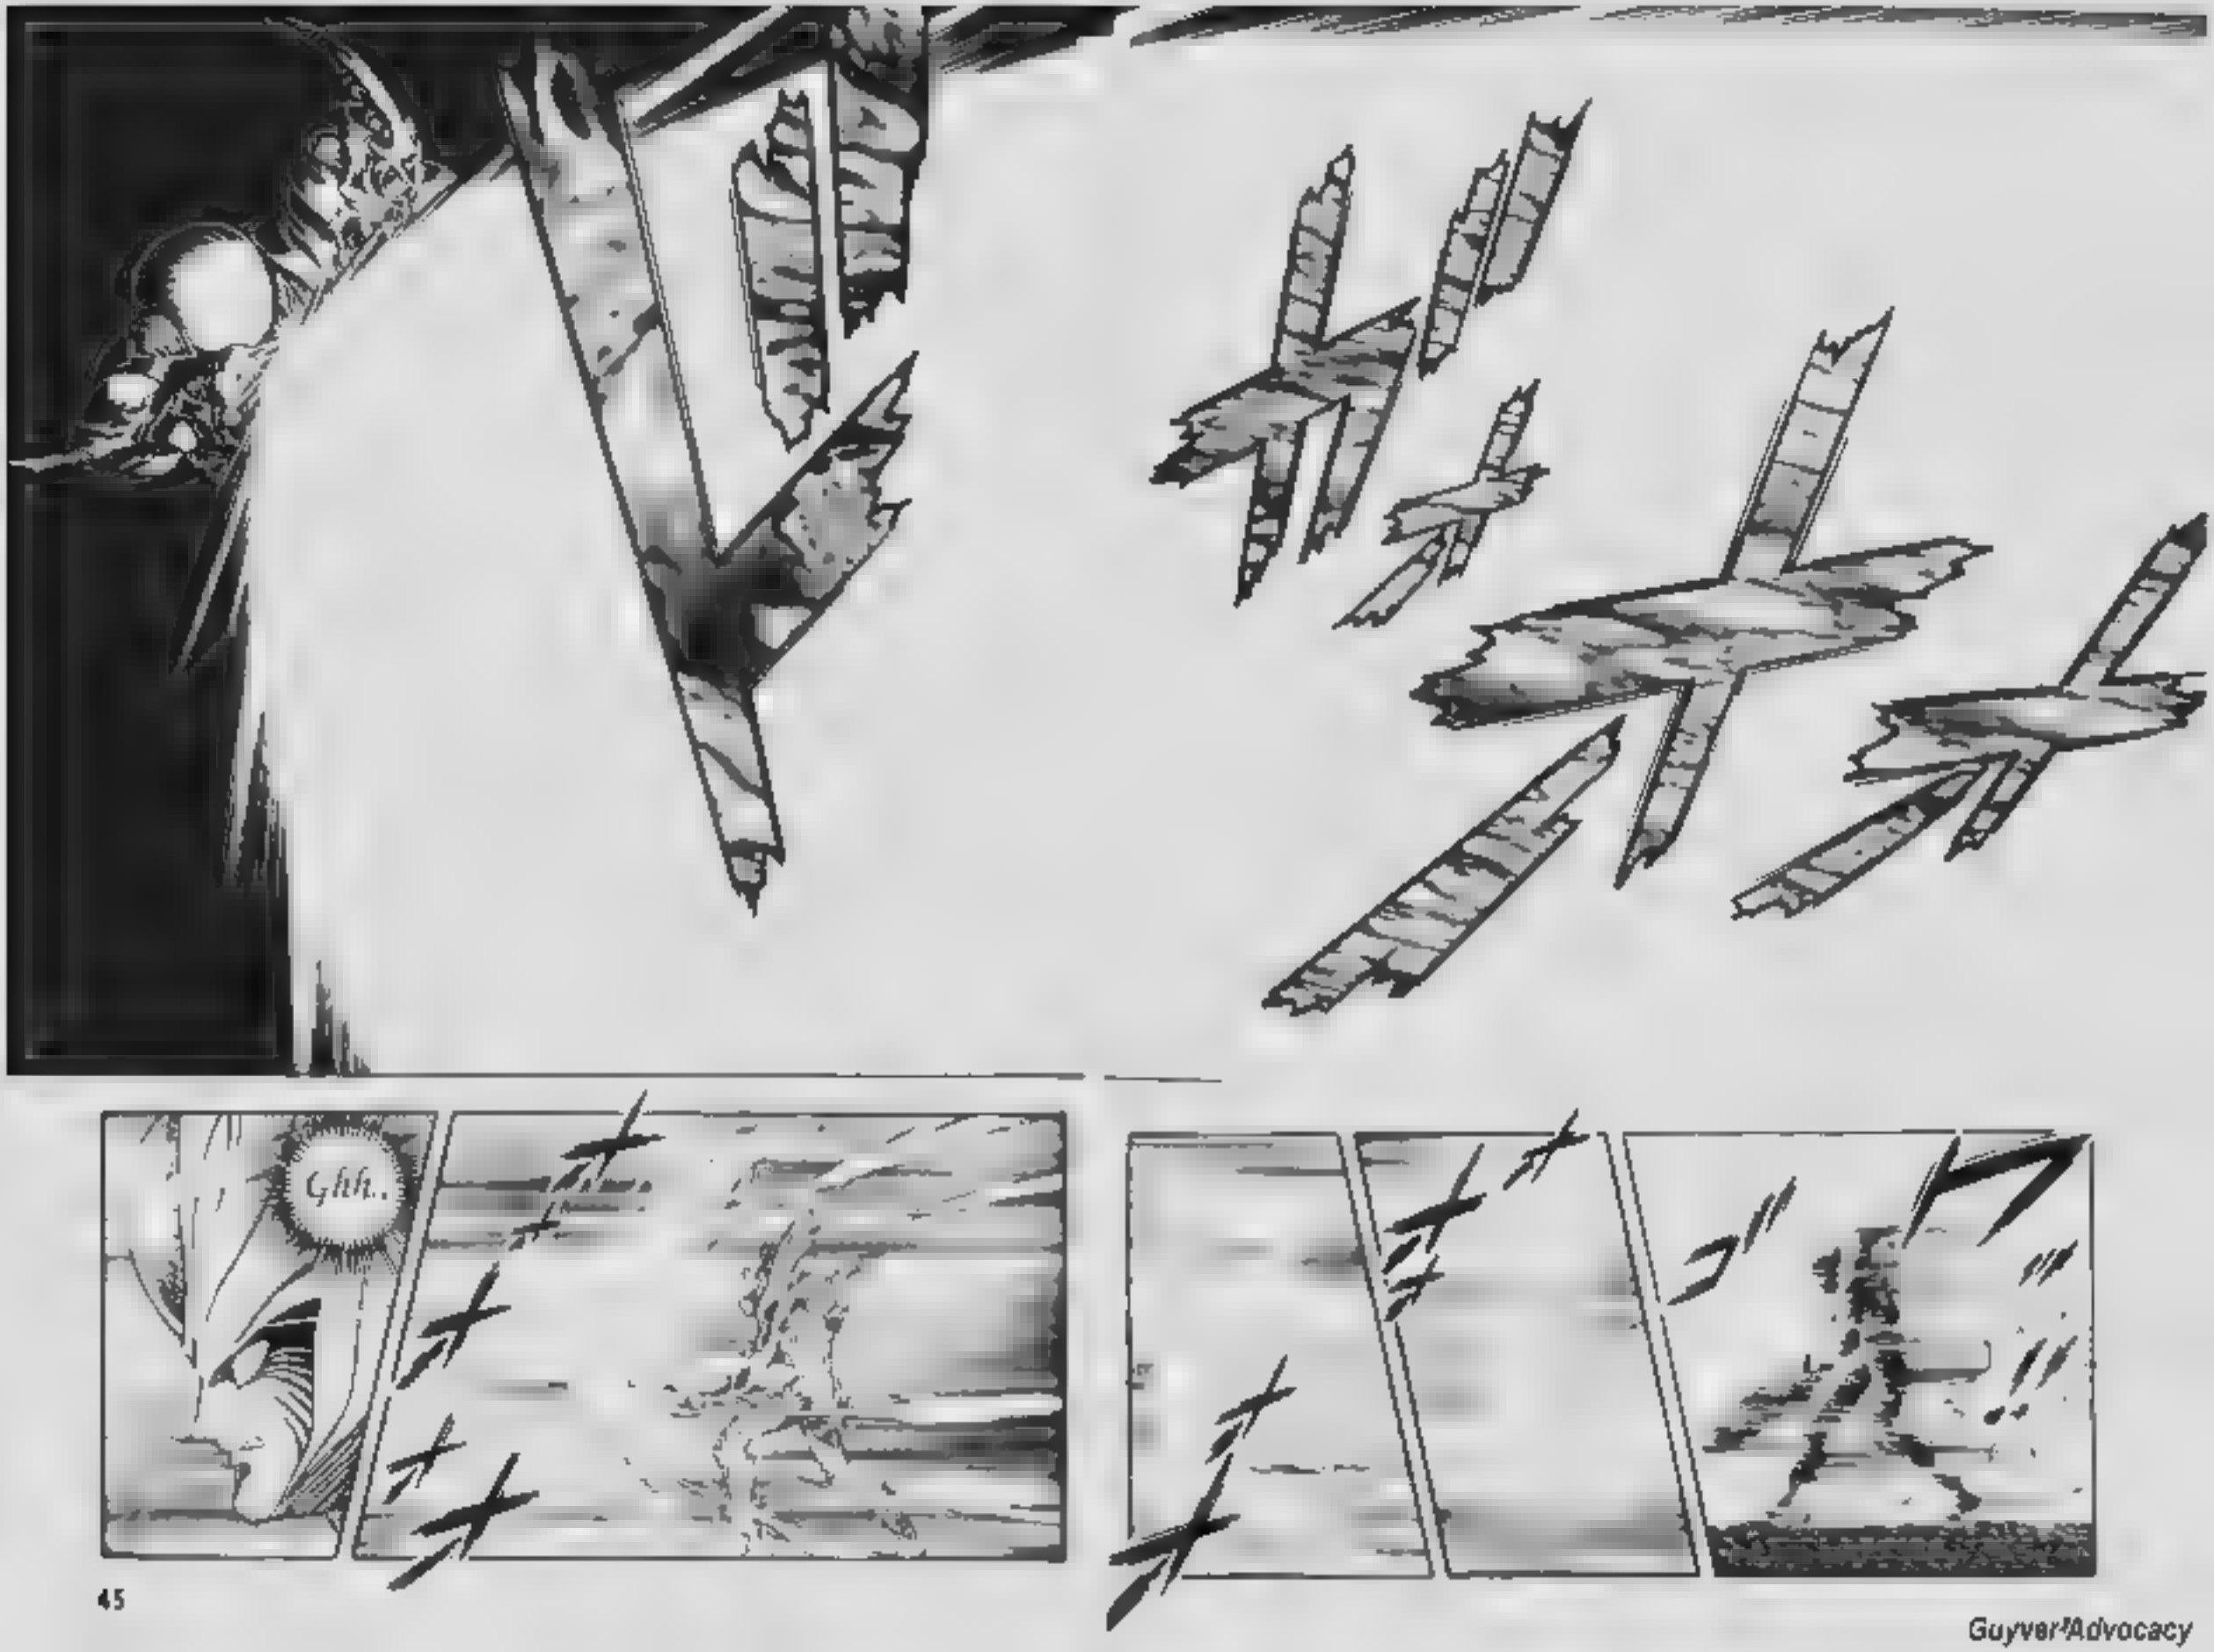
It is a UNIT REMOVER!

What is it?

Get closer to it before you use the Remover..
Wait



!!



Ghh..

It managed to damage the ship even through its defensive shields!

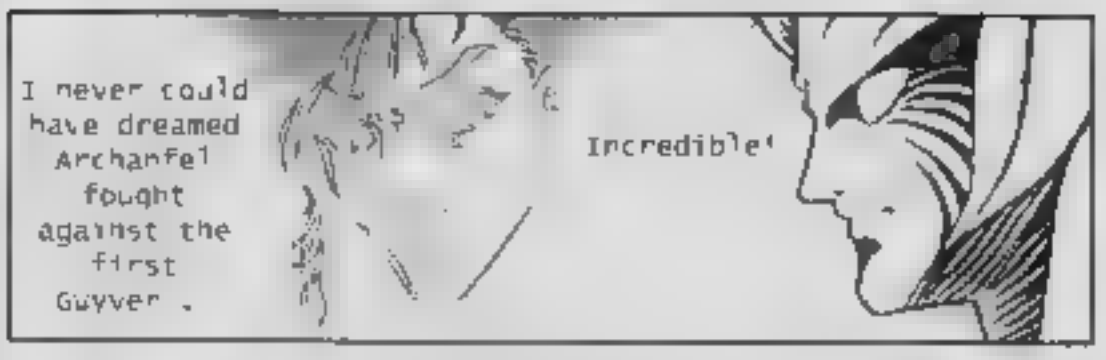
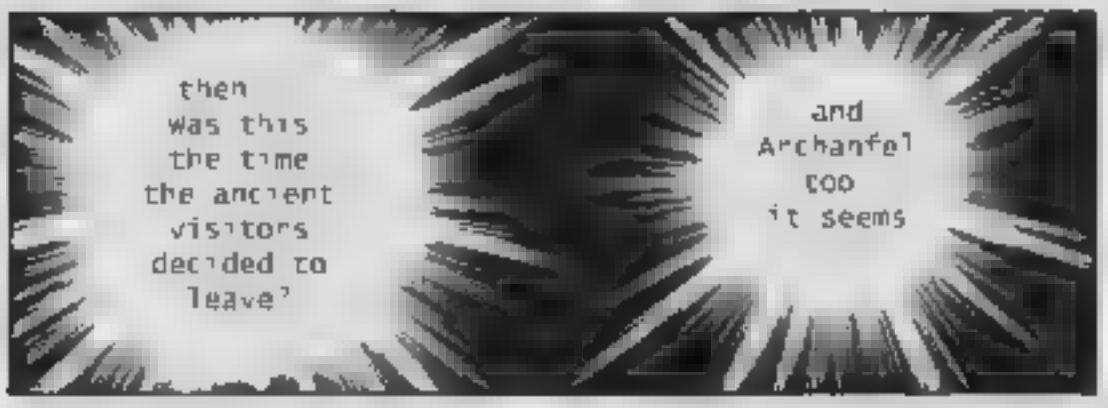
Chapter 89

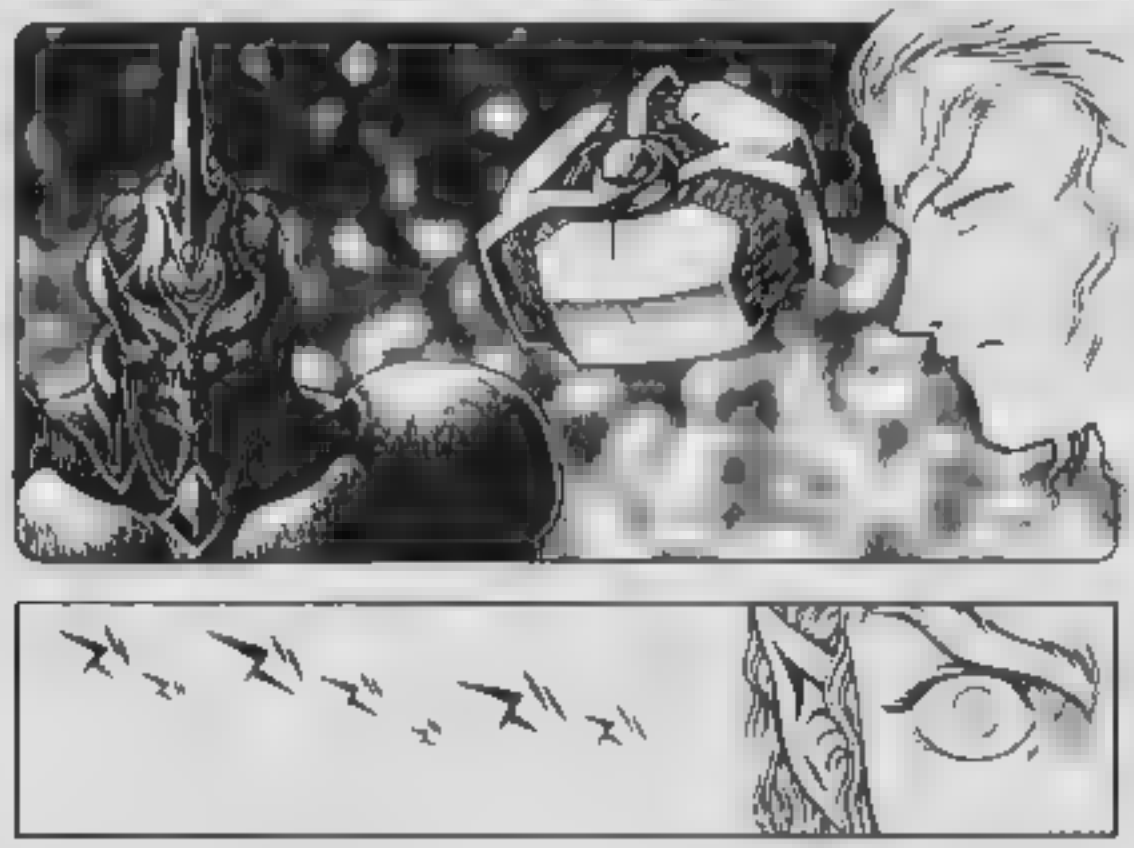


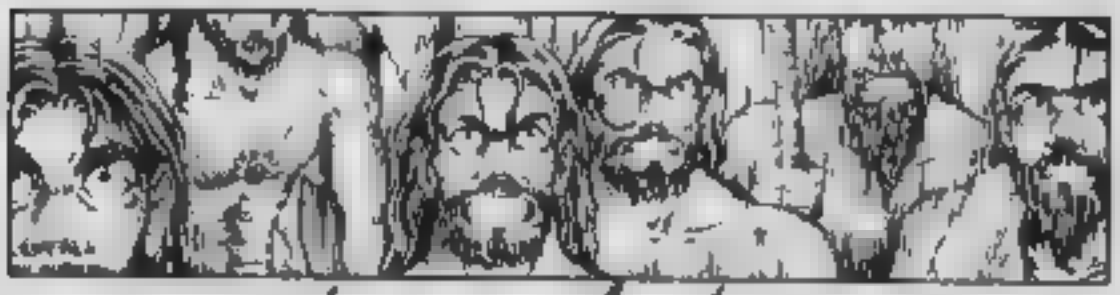
I never could have dreamed Archanfel fought against the first Guyver .
Incredible!

the ancient visitors understood how dangerous humans truly were .
And the worst is still to come.

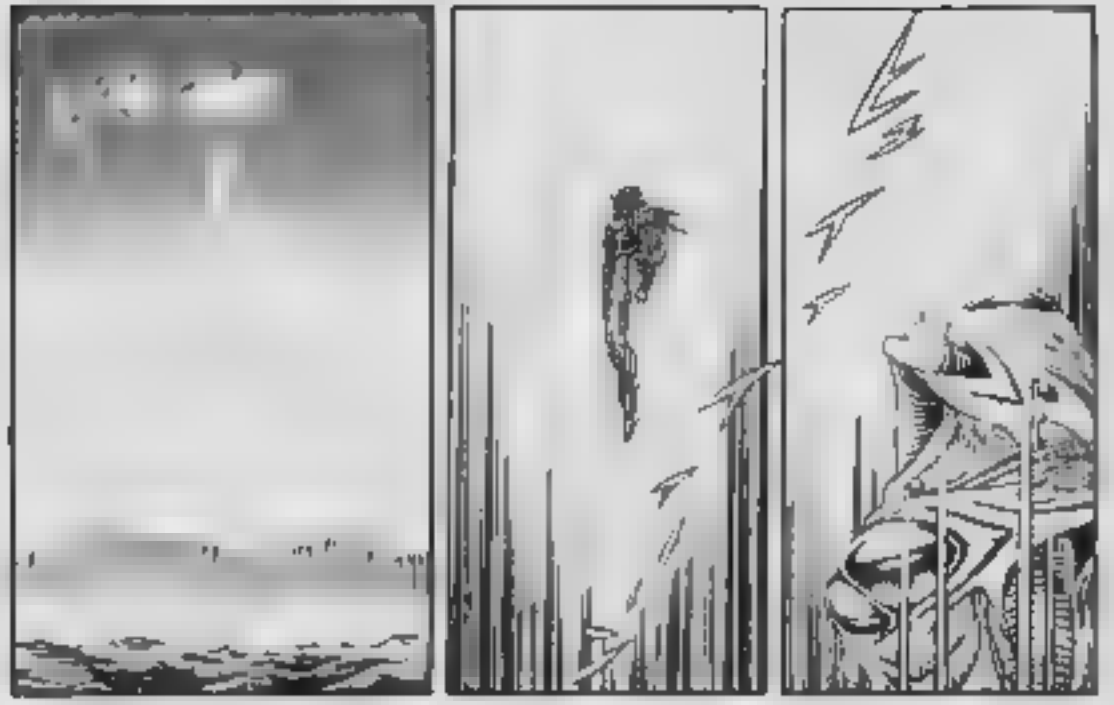


then was this the time the ancient visitors decided to leave?
and Archanfel too it seems

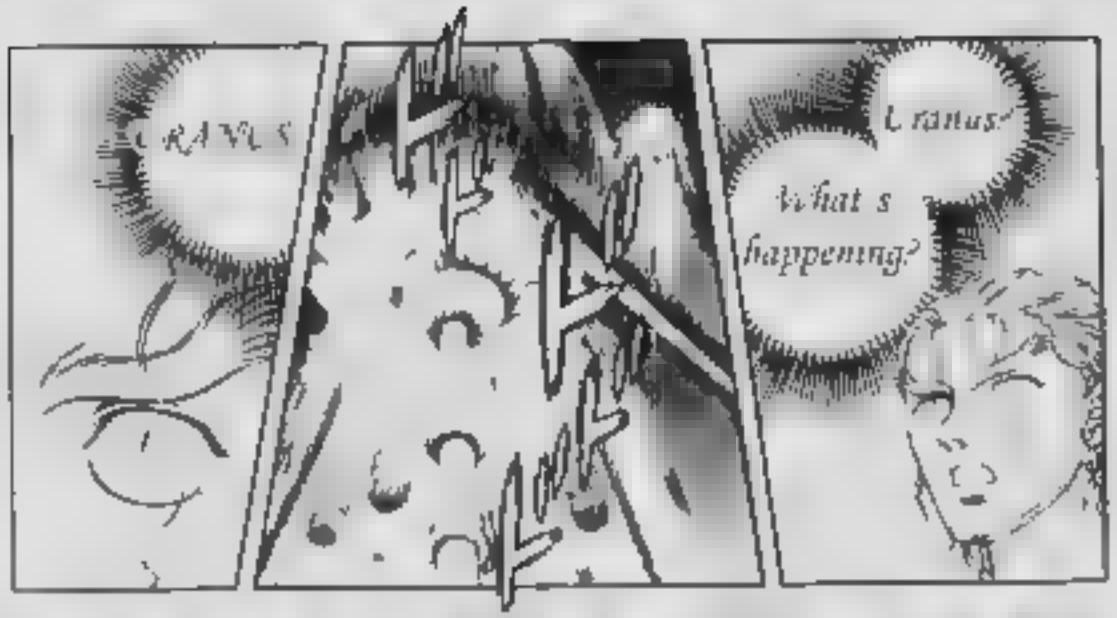




Guyver Advocacy



Where
you are
going?
Wait a
moment
Uranus!



URANUS
What's
happening?

!!

What would became of us if any other should possess a like such accidents could very well occur in the future

We realized it during the recent experiment

In the end we considered you are almost outside our control tolerances.

We have no defence against a being beyond our control...

YOU SHOULD NOT DO ANYTHING

Impossible

What should I do?

Then what

We have to leave immediately

Archanfel...

Please take me with you

Then take me with you

Why?

!?

Impossible!

The organisms created on this planet have a defect that disrupts our control

and that problem manifests when you merge with the Unit that is our standard equipment

IF YOU HEARD US NOW...

...YOU'D HEAR OUR VOICES.

WHY DID YOU CREATE US?

ENOUGH!

URRGGGHH

Unfortunately we have to admit that our project on this planet is a complete failure.

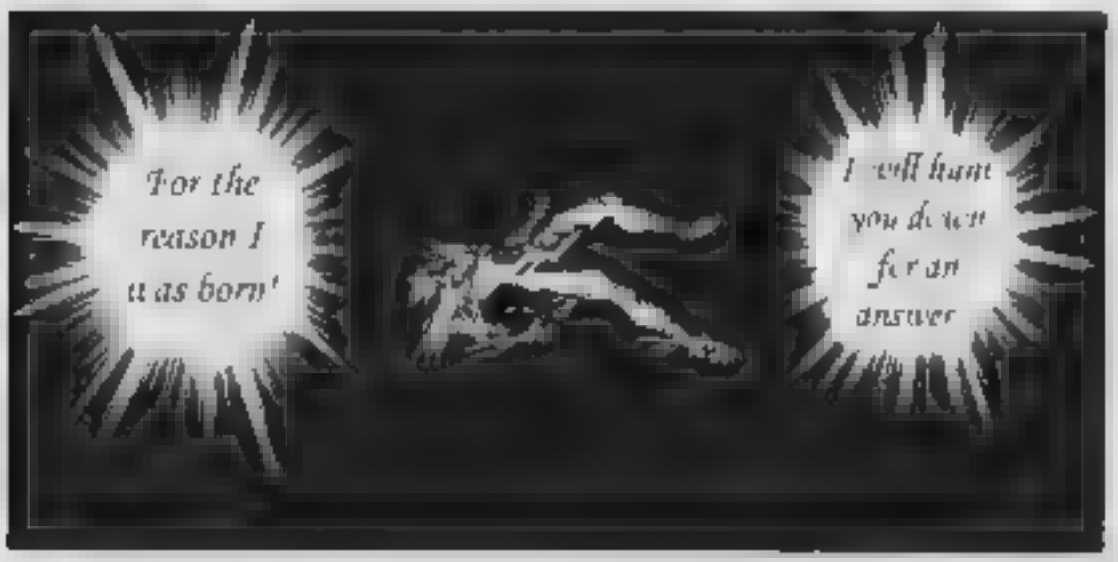
You are of no further use to us.

Then

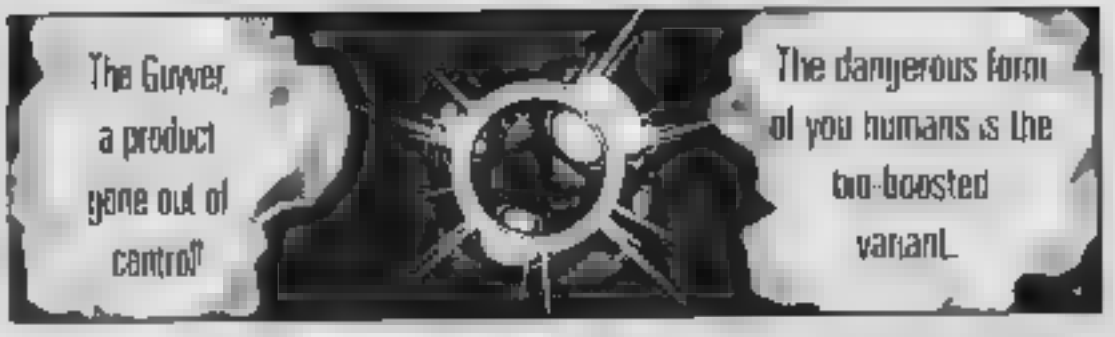
WHY HAVE YOU CREATED US?

why

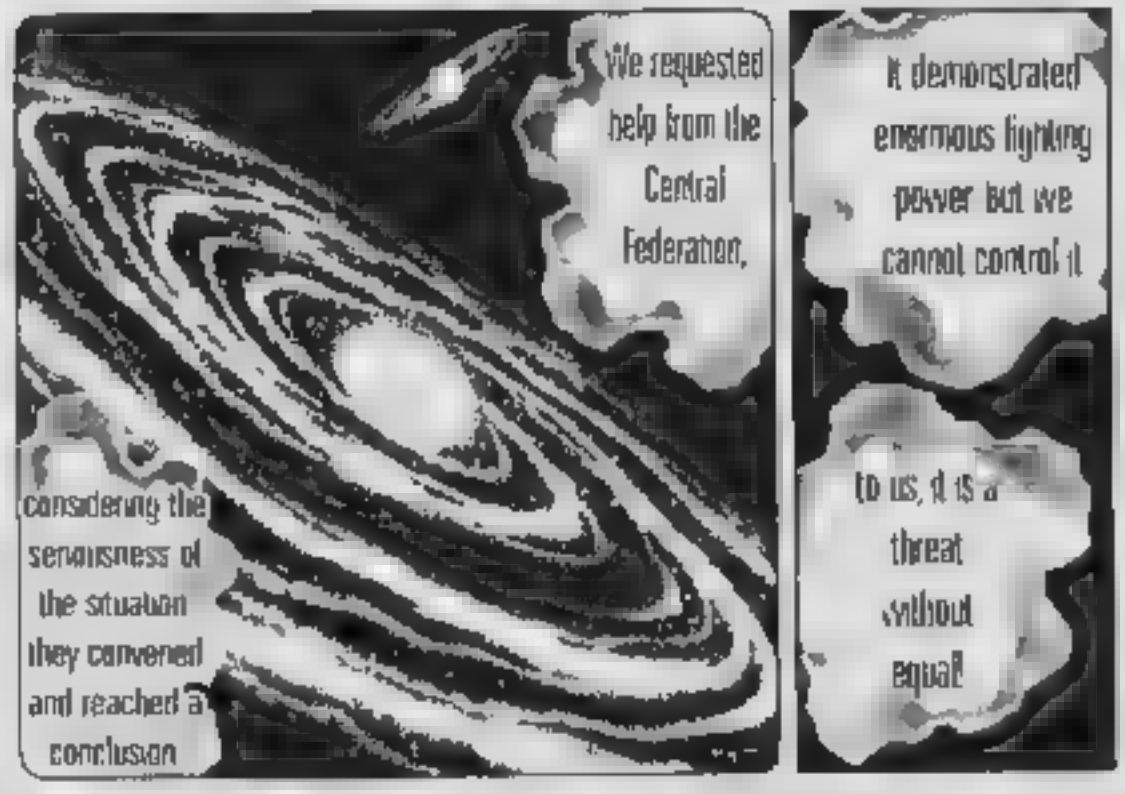
We cannot remain here any longer!
Farewell, Archanfel!



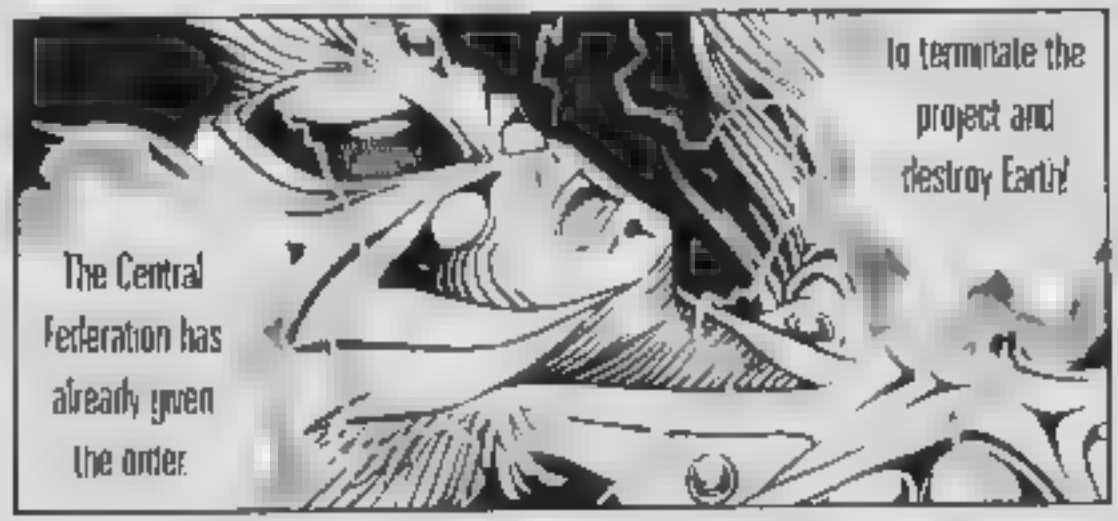
For the reason I was born!
I will hunt you down for an answer



The Guyver, a product gone out of control!
The dangerous form of you humans is the bio-boosted variant.



We requested help from the Central Federation,
considering the seriousness of the situation they convened and reached a conclusion
It demonstrated enormous fighting power but we cannot control it
to us, it is a threat without equal!



The Central Federation has already given the order
to terminate the project and destroy Earth!

. What could be coming through?

I can't move
So that shock served to disrupt my physical functions.

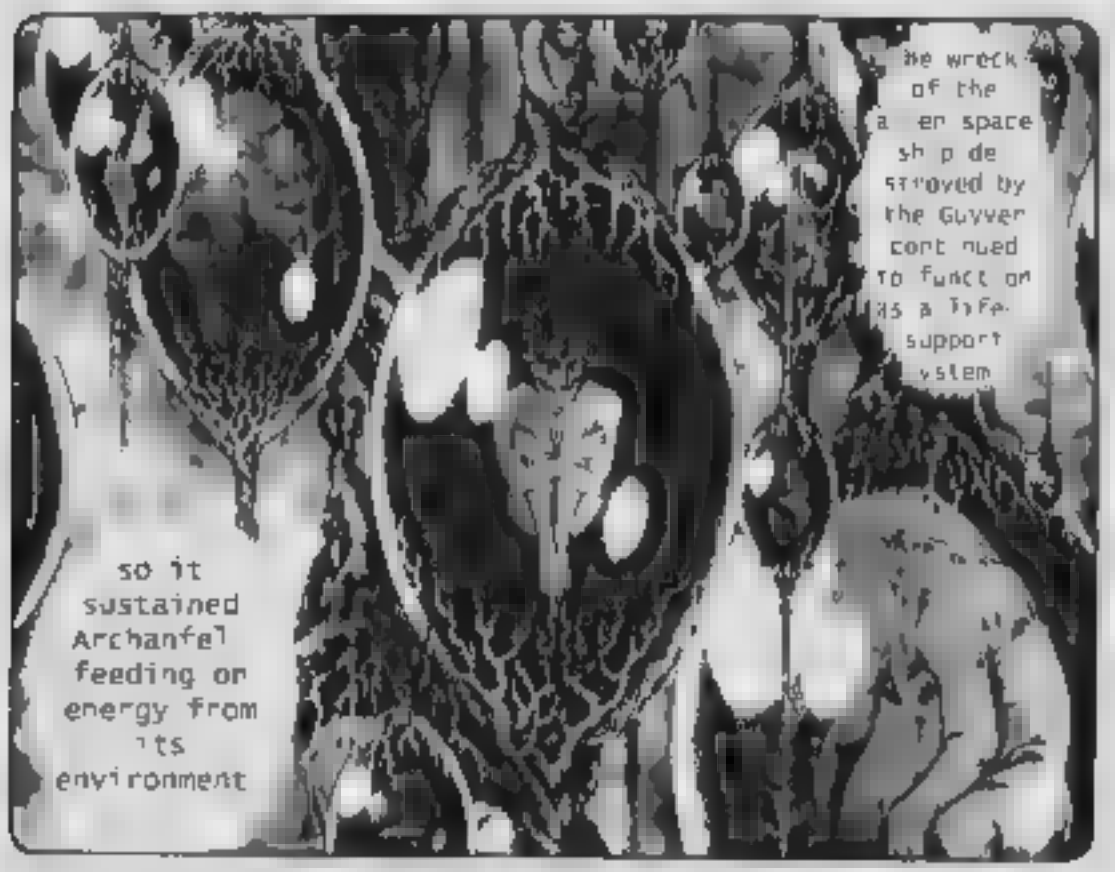
And at the same time



the wreck of the alien space ship destroyed by the Guyver continued to function as a life-support system
so it sustained Archanfel feeding on energy from its environment

but a small part remained thanks to the powerful psionic field radiating from the alien wreck.
Most of the immense island vanished beneath the waves because of continental drift

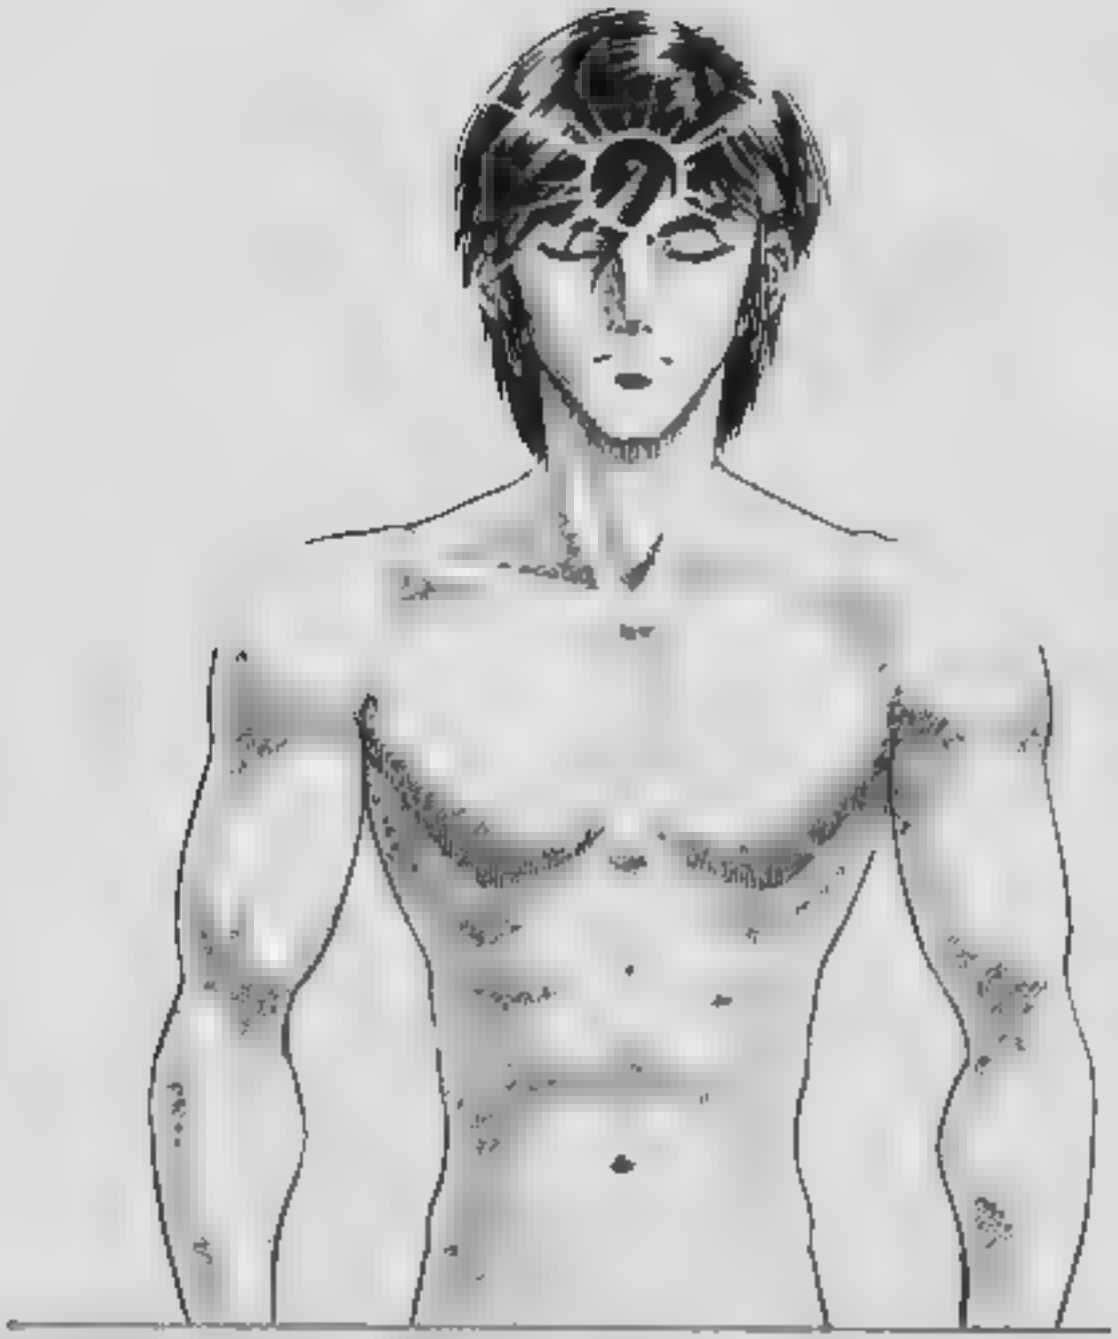
he shattered it to pieces, saving the world, despite the wishes of the ancient visitors
Archanfel struck the asteroid with every last bit of energy he had.

causing dramatic changes to the planet's environment

Still, some of the asteroid fragments rained down on Earth like a hailstorm of giant meteors

thanks to the ability to adapt to any environment, a capacity in which the ancients had taken great pride
But the humans survived

Chapter 90



and they constructed a temple around the alien wreck for their master to sleep in.
The people who lived on the island revered the awesome Archanfel

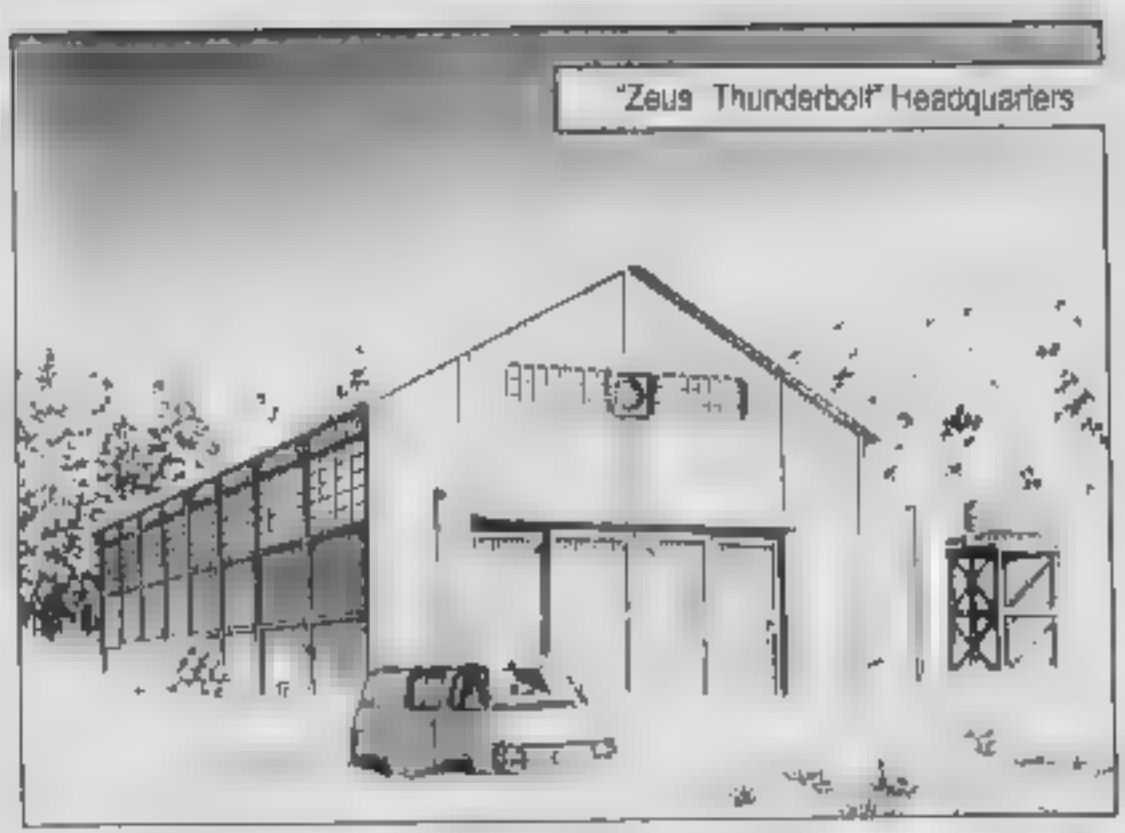
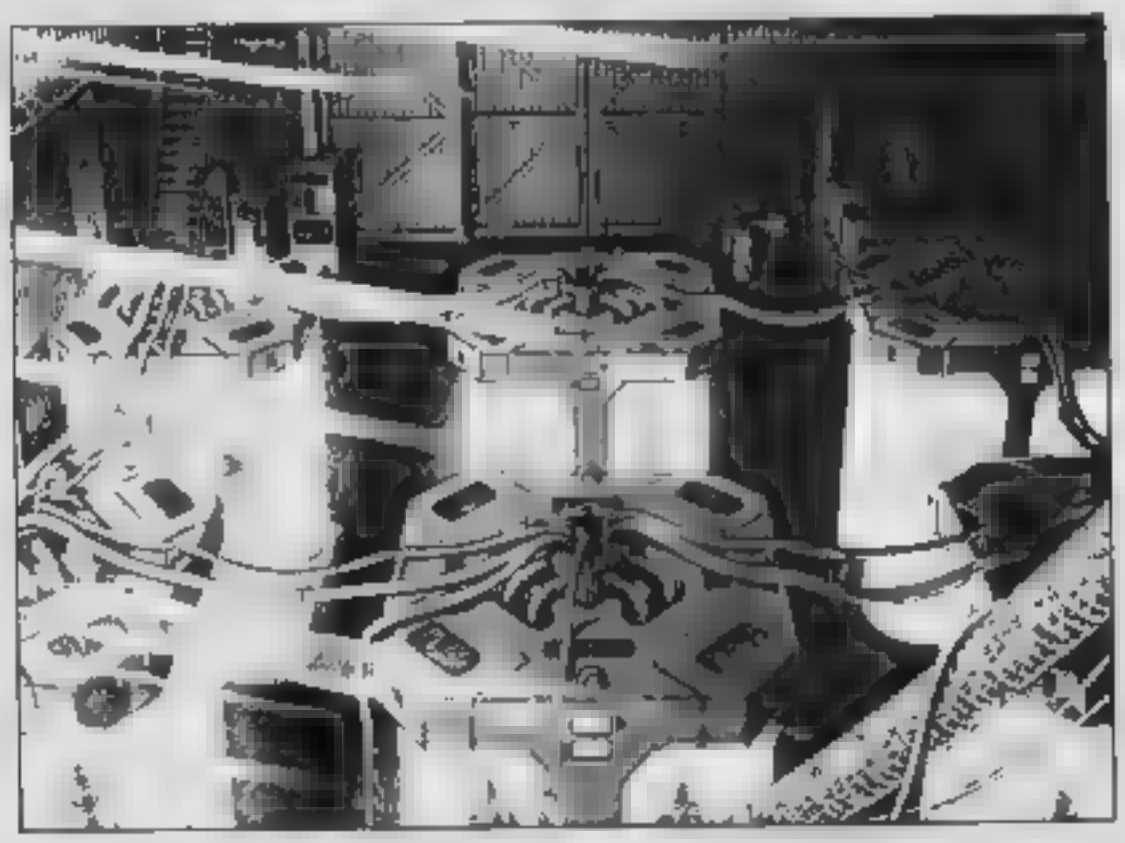
Ah there you are
Dr Heckaring



"Zeus Thunderbolt" Headquarters



I have begun processing them applying information from the japanese documents with some further modifications.

I think they will be superior in combat ability to normal Zoanoids

The majority of them will be ready within a month

The tests were very promising

Don't you agree Agito Makishima.

Maybe to me it seems like madness

that not even Barcas could imagine developing Zoanoids in a warehouse in the middle of nowhere

Excellent Dr Heckaring

Then we will be on a level playing field with Chronos

If you hadn't loaded me into an equipment container and threaten me with the vaccinations I need to survive if I did not help you

Tsk

You did very well doctor

we needed the brain of doctor Alfred Heckaring

We needed a level two scientist who possessed the know-how and experience needed to develop Zoanoids. .

But we needed your help desperately!

I have asked your forgiveness for my rude behaviour

You mean you needed me for your ambitions didn't you?

Since won't survive very long

They'll last five years at most
Did they volunteer for this, knowing how they would end up?
After being developed, they will have the powers of Zoanoids, but they will lose their ability to reproduce

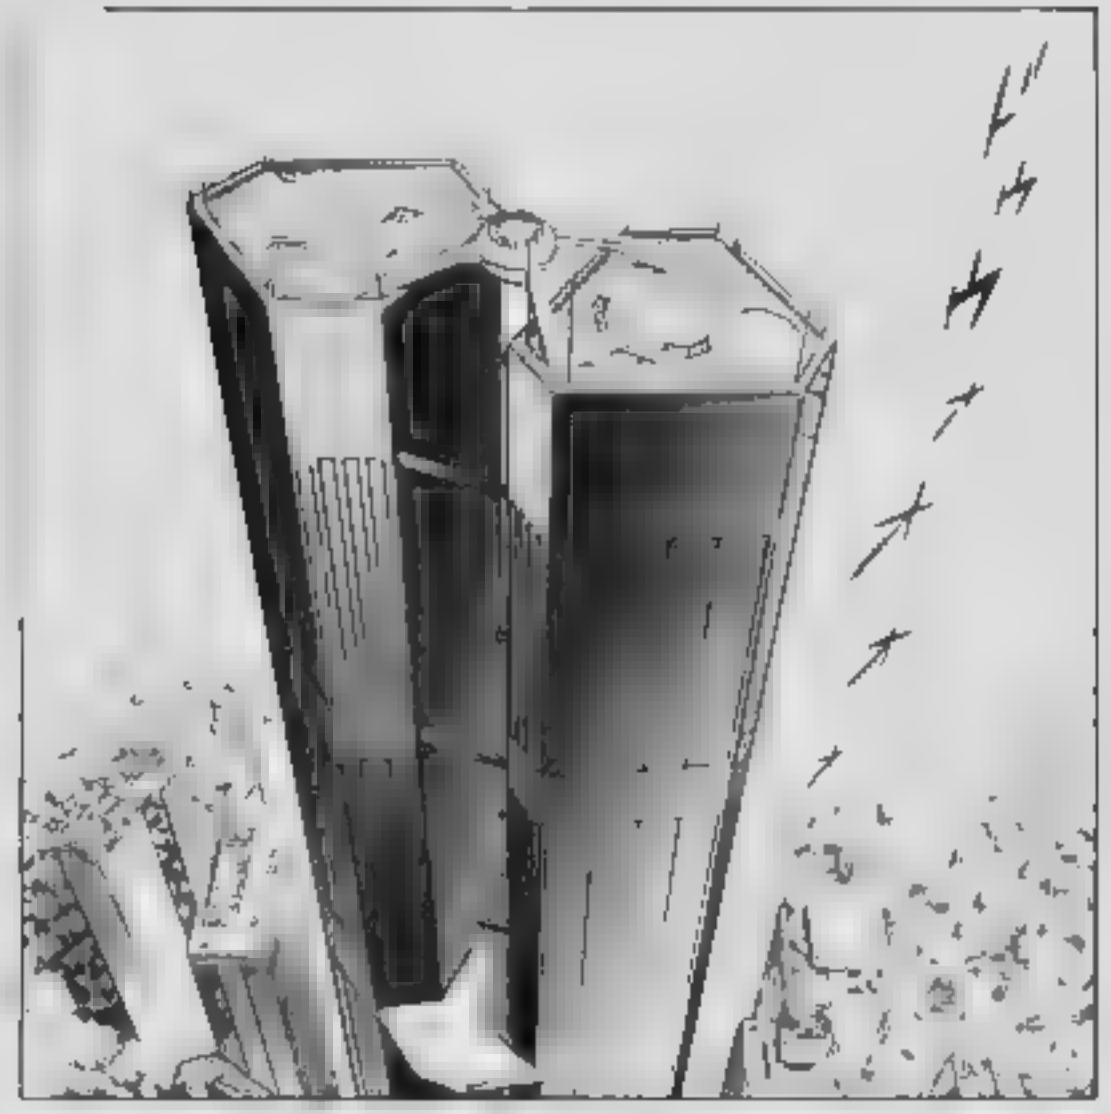
I am here solely...
Bah that is of no concern to me
...

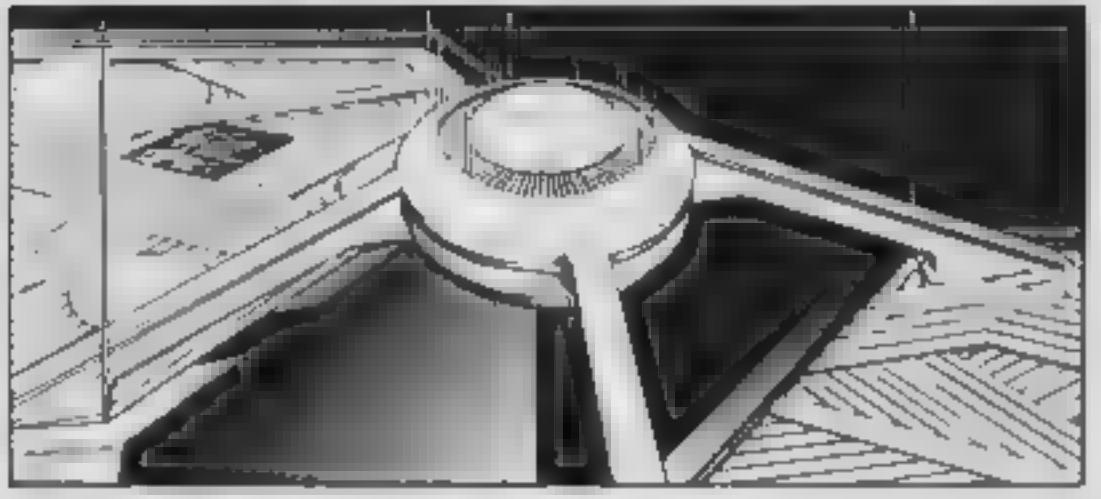
Now that Chronos has taken over the world
because was interested in your idea of a Zoanoid army that is not subject to the Twelve Zoalords control

One month after Shinjuku Tokyo

Since then there have been no more actions by the Guyver
It's been a month since the last attack in Arizona

Then why do I get such a bad feeling ?



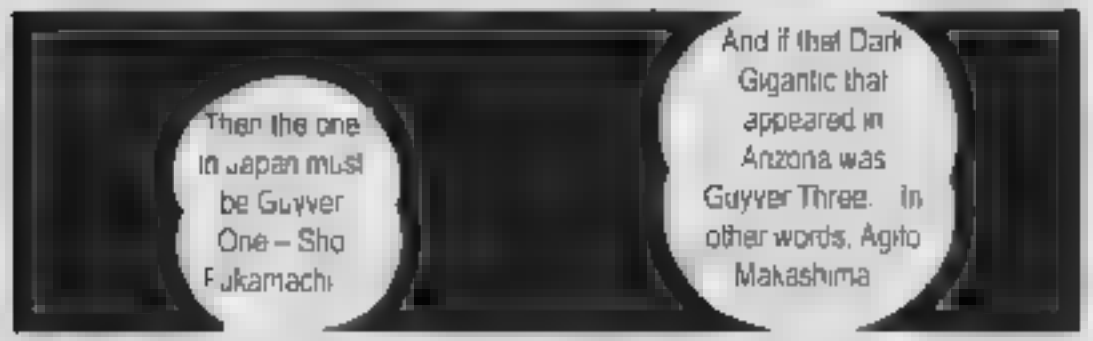


am certain this secret has something to do with our mysterious lord Archanfel
It seems to me that the Doctor is hiding something

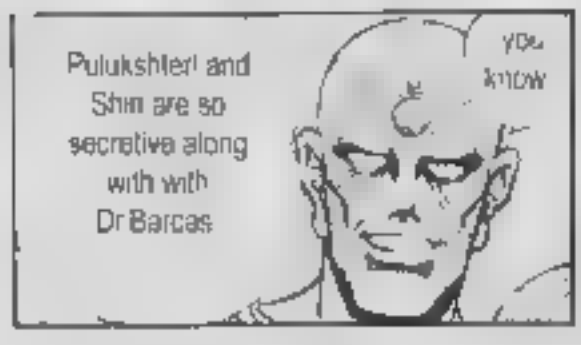
But don t you think it has some thing to do with the Guyver?
Yes and we are not meant to discover it.

And Shin and Pululkshter know what this secret is yes?

II



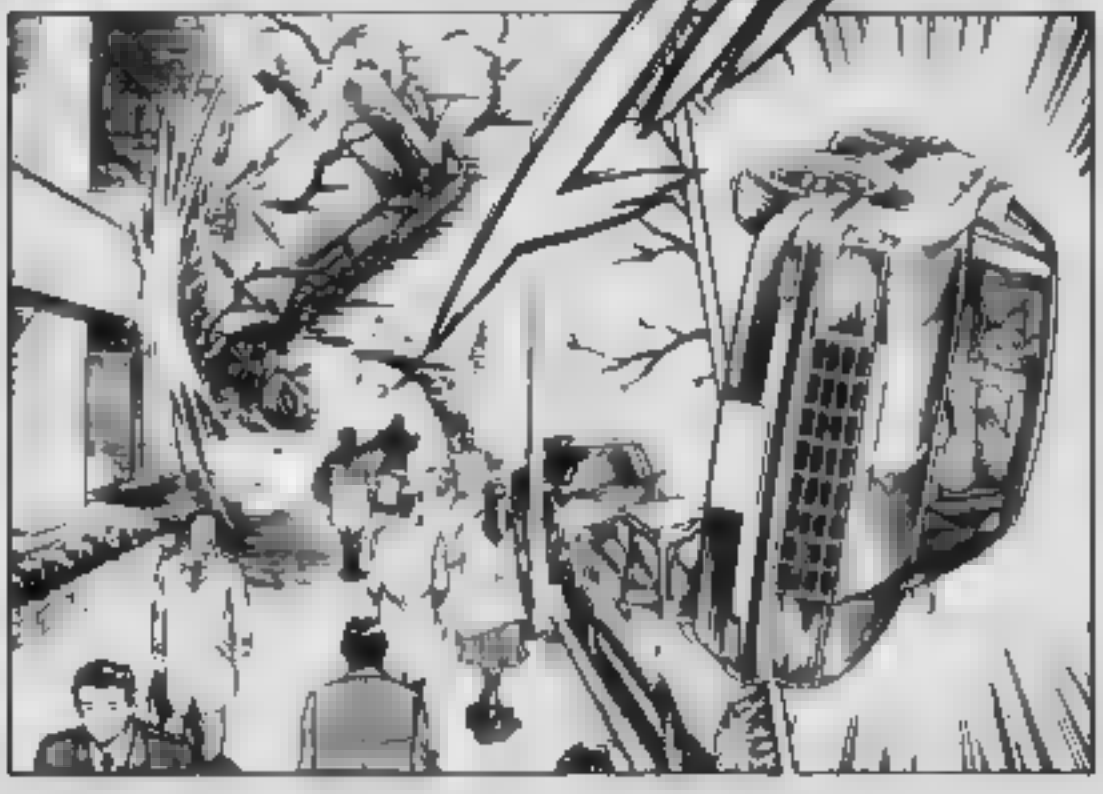
Then the one in Japan must be Guyver One – Sho Fukamachi
And if that Dark Gigantic that appeared in Arizona was Guyver Three. In other words, Agito Makashima



Pululkshter and Shin are so secretive along with with Dr Barcas
you know

Are you sure we can do this without getting the approval of the head of the Japanese sector?

If they knew we were doing this, they'd no doubt attempt to stop us in some way.



BRANCHA BROTHERS!

Therefore we can proceed as planned.

I told you the plan telepathically, yes?
You will start now!

We are ready

We will lure him out without fail

Leave it to us

What he?
That car just exploded
Hey look at

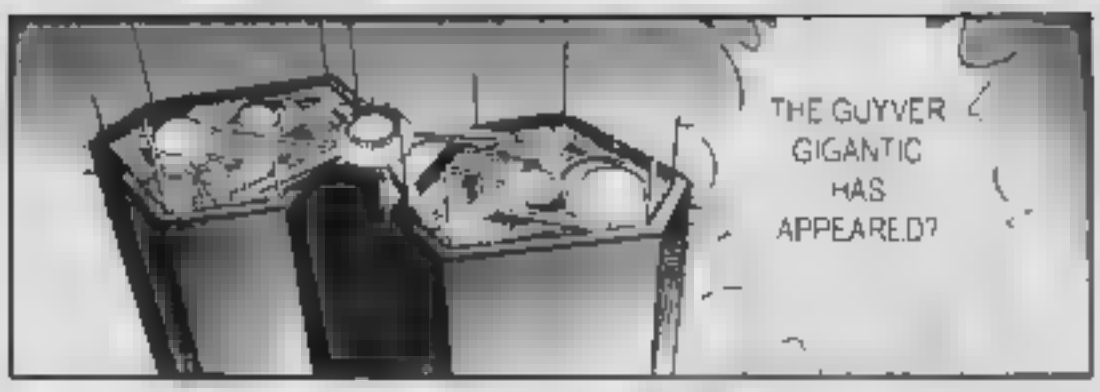
No! It must be that thing called guyver
A Parasoid?
It has to be! On the television they said it was an alien spy come to destroy the world!



THE GUYVER GIGANTIC HAS APPEARED?

and then?

hm

Yes, immediately!

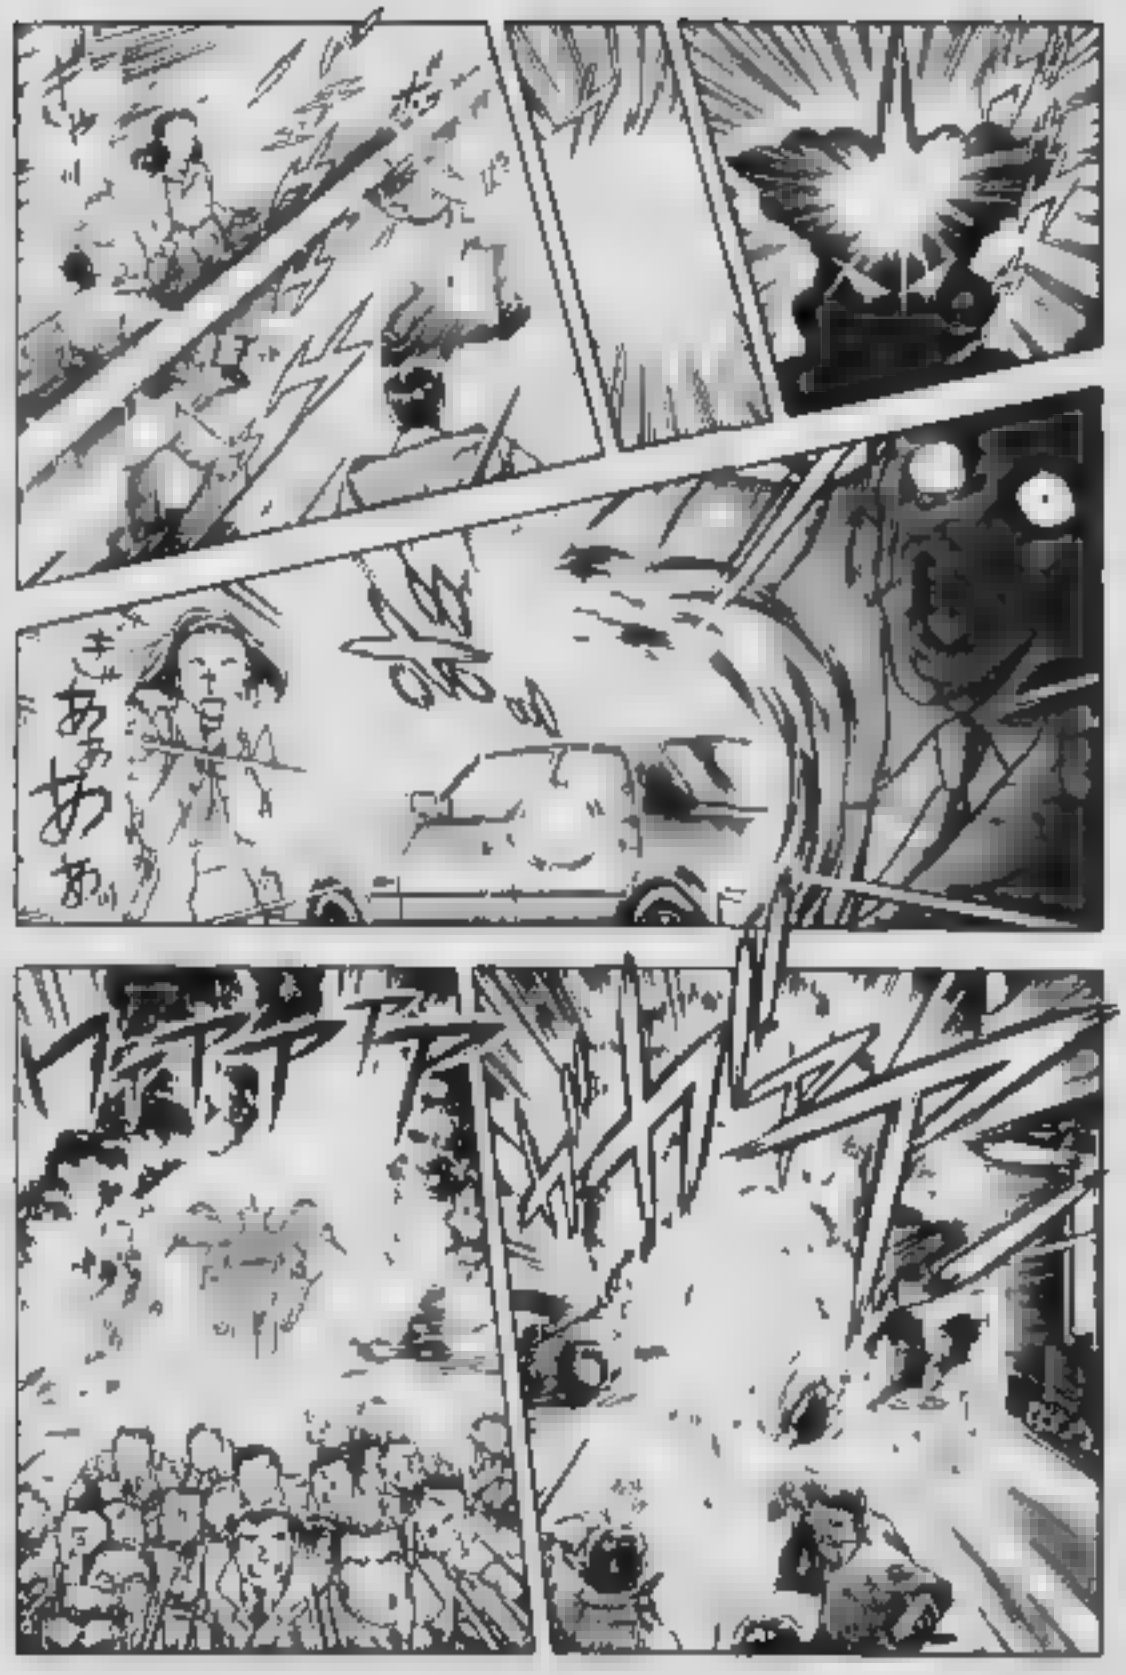
I DID WHAT ?



Today, around 14 00, the Guyver appeared in the Marunouchi District in Tokyo

It destroyed buildings in the area allowing no-one to escape

So far, it has caused the death of forty-eight people and injured seventy-three others

It's an impostor

Who the devil is this Guyver?

B-but what's going on?

the G-Guyver has appeared again

We have just received a news update

Hyperzoanoids given the ability to fuse into a single body!
We are the Branchai Brothers

Seeing as we are in a densely populated area

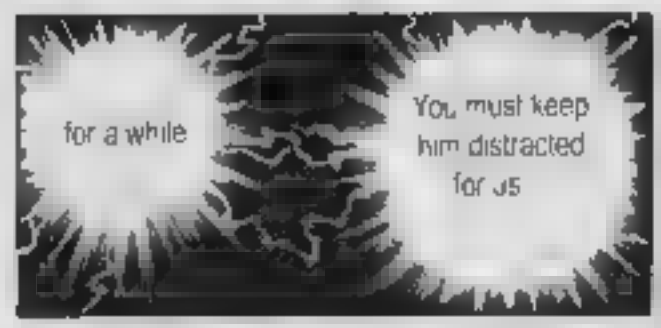
It'll take them a while to evacuate everybody don't you think?

It seems that another guest has arrived at our party

Moreover we will see whether Friedrich would be willing to join us
That will make our party rather interesting.



You must keep him distracted for us

SO

Abuja? That is in the African

Listen to me Shio

yes doctor!

But I still should have monitored that type of development

There is no doubt in my mind that those are Kurumegniks Hyper-Zoanoids

But Aren't I needed here?

actually wanted to request that go to Japan

Can you leave for Japan immediately?

That matters little

Only, if some day, there were an attack on Headquarters

Would it not be risky if left now?

I am very worried about Pulukshter!

I have a bad feeling about this

They have displayed disturbing behaviour, and sometimes I just don t know what they are thinking
I have been watching Kurumegawa and the others for quite some time now

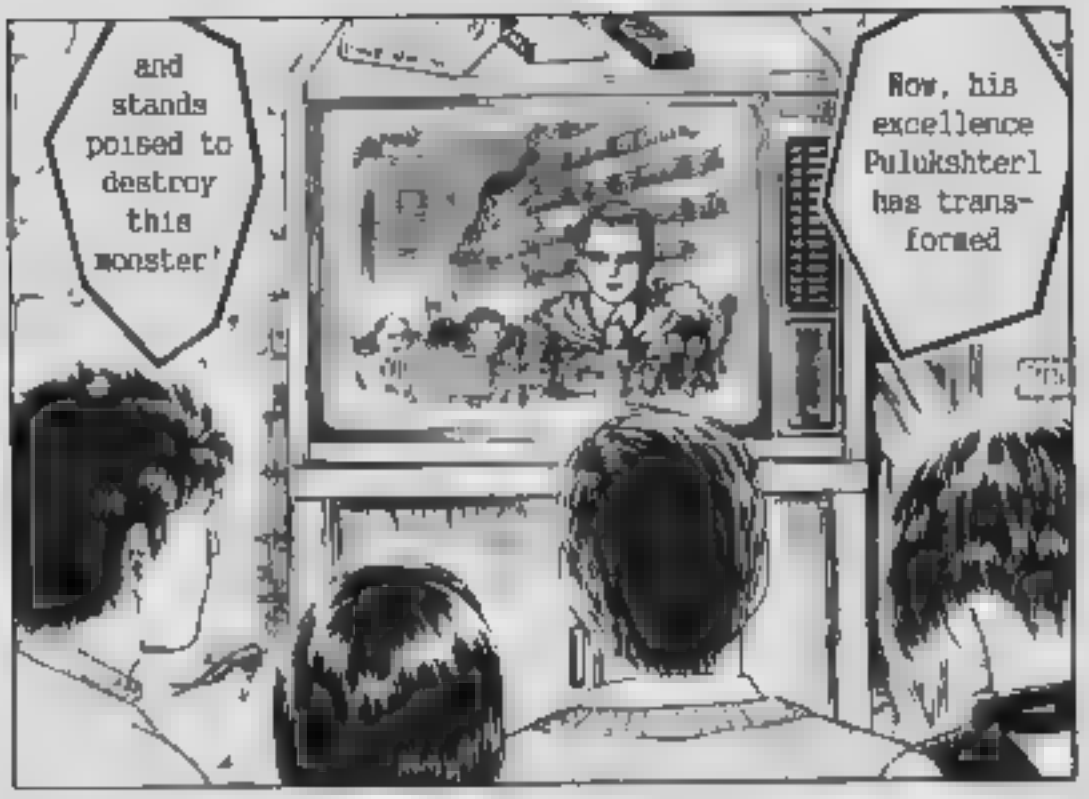
the Guyver Gigantic has relentlessly caused enormous destruction



and stands poised to destroy this monster!
Now, his excellence Pulukshteri has transformed

That must mean the fake Gigantic was controlled by him!
So the Zoalord in charge of the Japanese sector has taken action

Just like thought - it was all a trap

We will report further developments

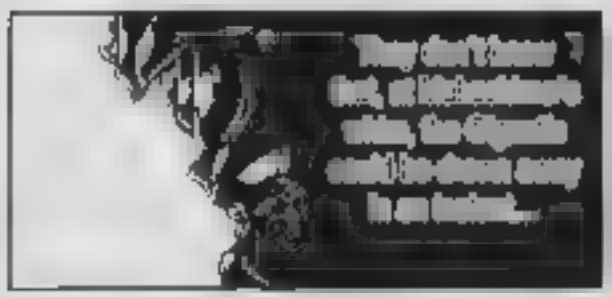
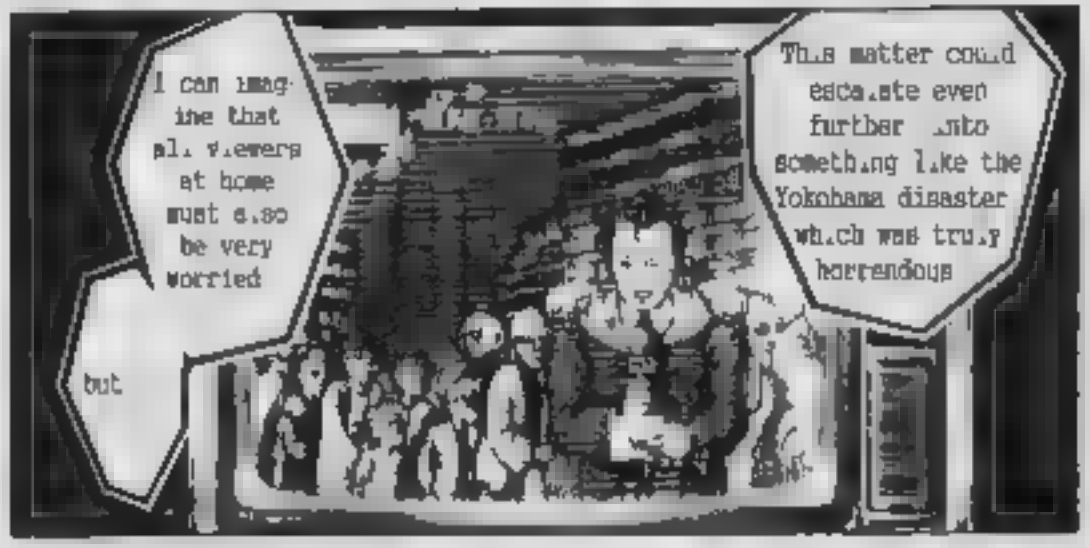
Unfortunately TV media crews were forbidden from entering the area because of the danger

Anyone watching this at home is urged to stay indoors.

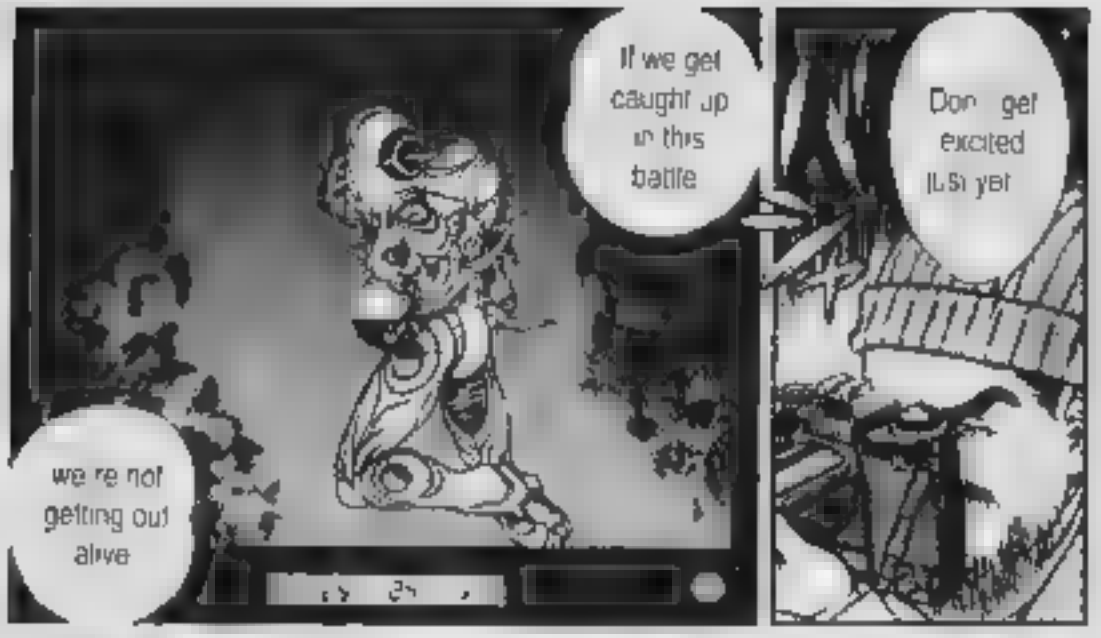
Mizuki and the others still do not know
about Makishimas betrayal

You can do it can't you Sho?
You will return to me safe and unharmed won't you?

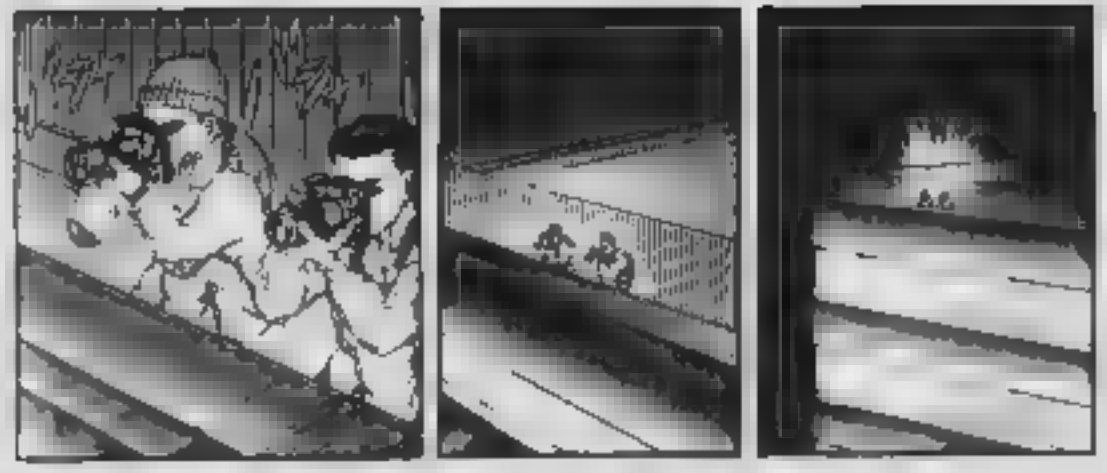




I can imagine that all viewers at home must also be very worried
but
This matter could escalate even further into something like the Yokohama disaster which was truly horrendous



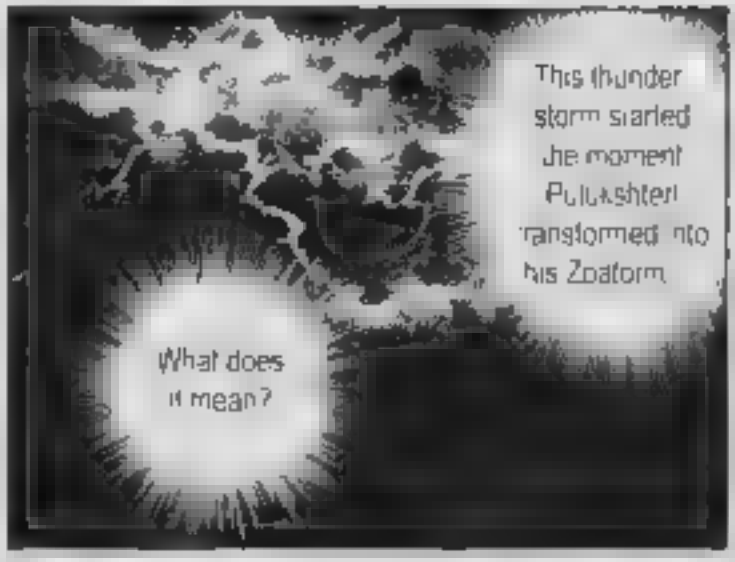
If we get caught up in this battle
Don't get excited just yet
we're not getting out alive



Look at that Zoalord Pulukshtar's battle form!

What a great idea to come here
What a scoop!

I will fight for the honour of the divine Twelve of Chronos.
And now that have chosen to do battle victory is inevitable
PREPARE YOURSELF, GIGANTIC GUYVER!



This thunder storm started the moment Puluxshter transformed into his Zoaform

can't believe it

Well, he said himself that desperation can give courage to a coward
If you ask me it's kill or be killed and even the victor will be seriously injured
So now Pulukshteri is putting his life on the line

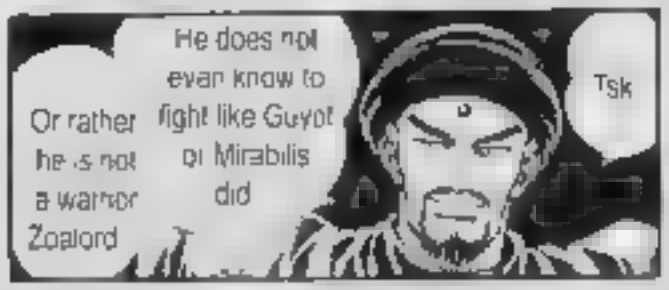
Heh, heh

Just as we wanted

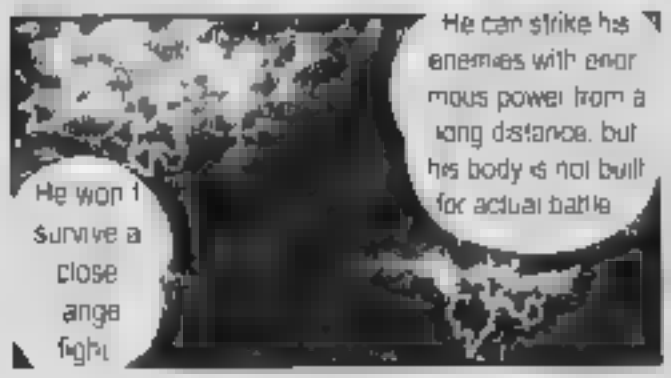
Heh heh heh

We will be able to gauge Pulukshteri's skill

Heh heh It seems it has begun



Tsk
He does not even know to fight like Guyot or Mirabilis did
Or rather he is not a warrior Zoalord



He can strike his enemies with enormous power from a long distance, but his body is not built for actual battle
He won't survive a close range fight

So now a Zoalord is playing along with this game...
That must be Pulukshteri.
The idiot...
He should never have fallen for their trap...

This will be your end!

He is attempting to close in!
